

Azur
1/12 Scale Paper Model Instructions

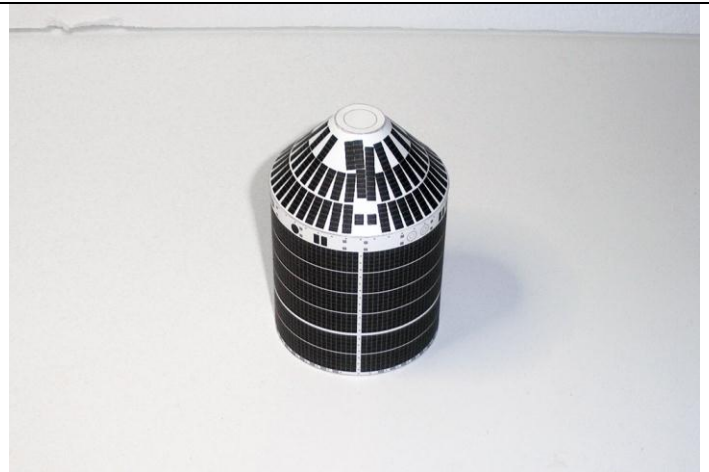

NOTE: Due to limited photos available, some graphics on the model may not be as accurate to the real satellite.

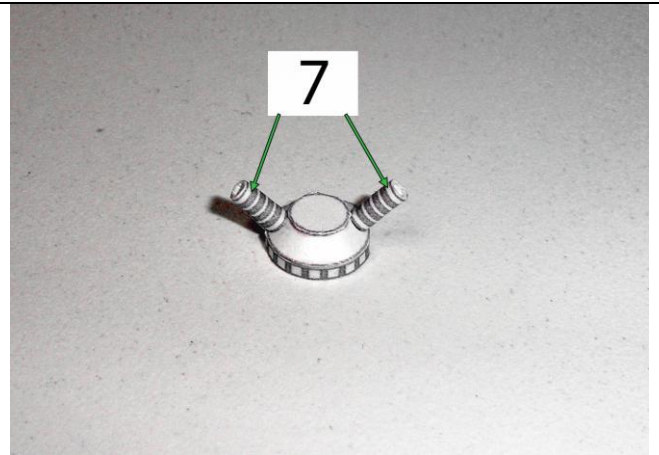

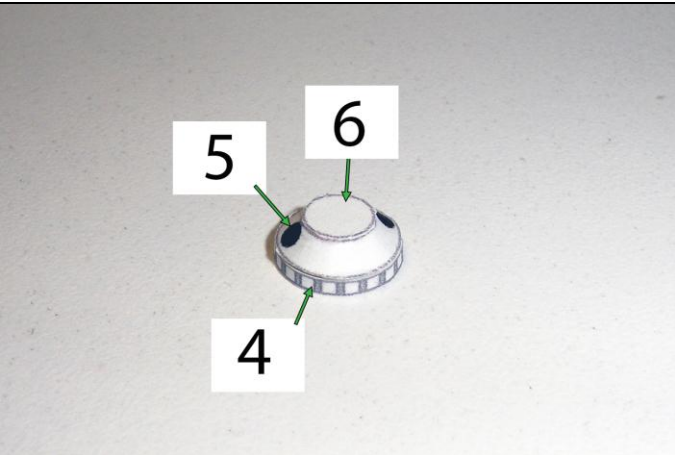

Poke small hole on the black dots on part 9, then glue to the bottom.

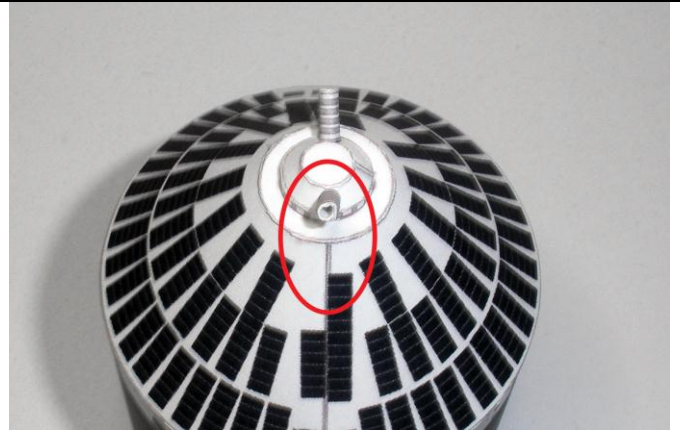

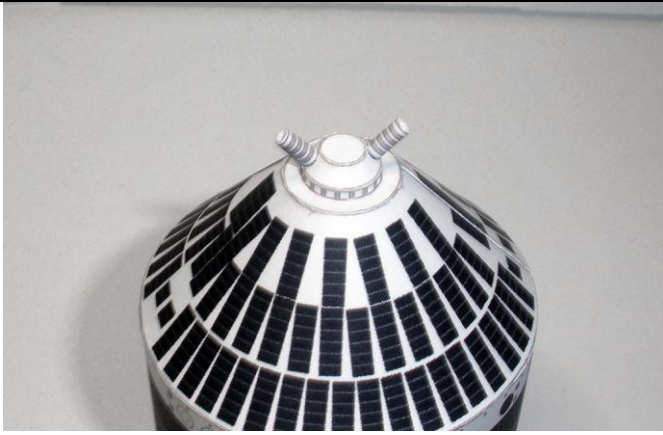

Match the black dots to the white lines as shown.

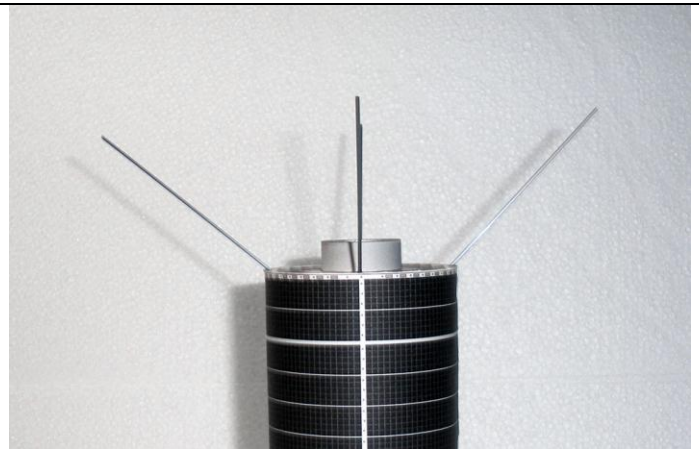

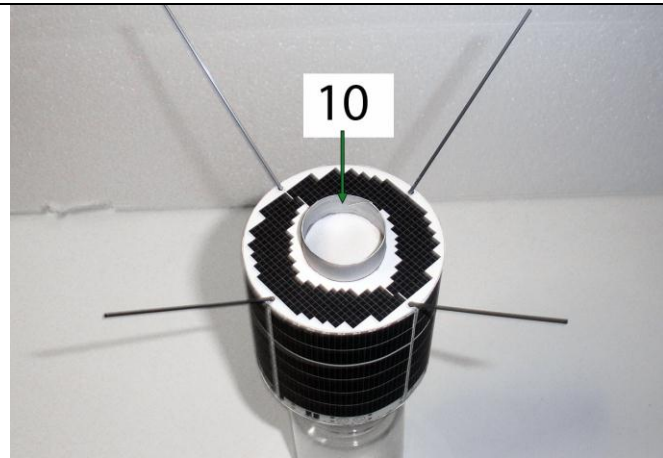

Glue 2-3 on top, match the seem of part 2 to the body.

Match one of the short rods to the seem on part 2.

Prepare the four antennas according to instructions on page 2 on the parts file, glue onto the holes over the black dots.

Glue at this angle.

Your model is done.
