

BioSentinel – Easy Version

1/3 Scale Papermodel Instructions

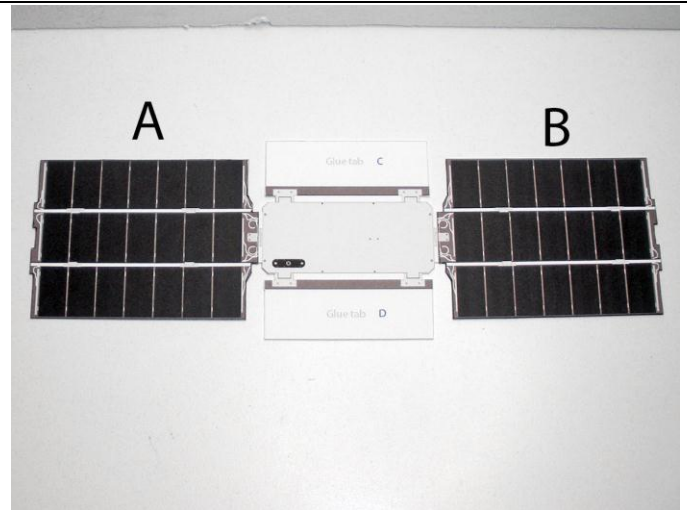

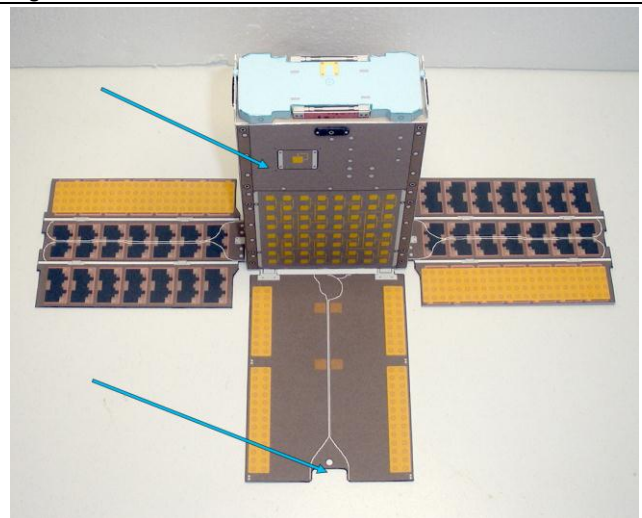

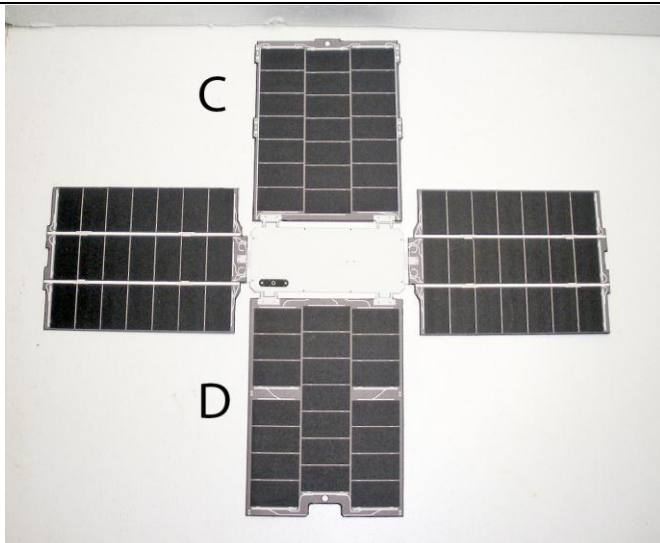

Glue parts 14 and 15 back-to-back – front view

Backview, Then glue onto part 13 for proper thickness.

Match the letter assigned to each solar panel to the letter on the glue tabs.

Glue the main body to the back of the solar arrays as shown.
Note the two arrows showing the graphics on the body facing the solar panel with the notch at the end.

Your model is done.
