

# BurstCube

## 1/3 Scale Paper Model Instructions

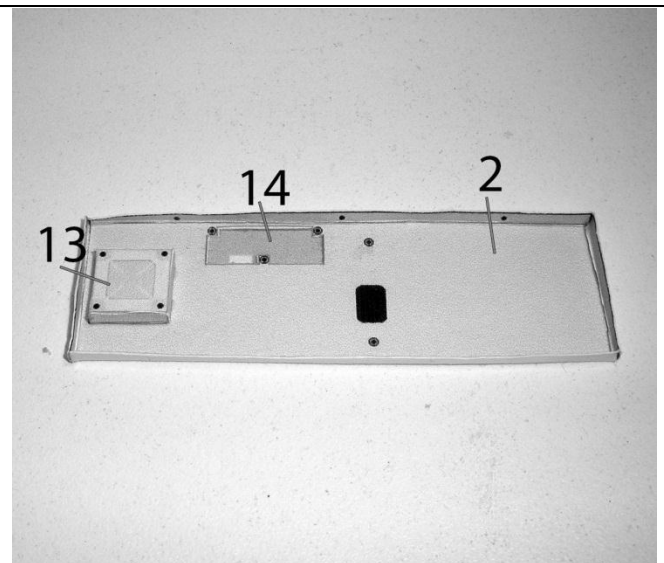

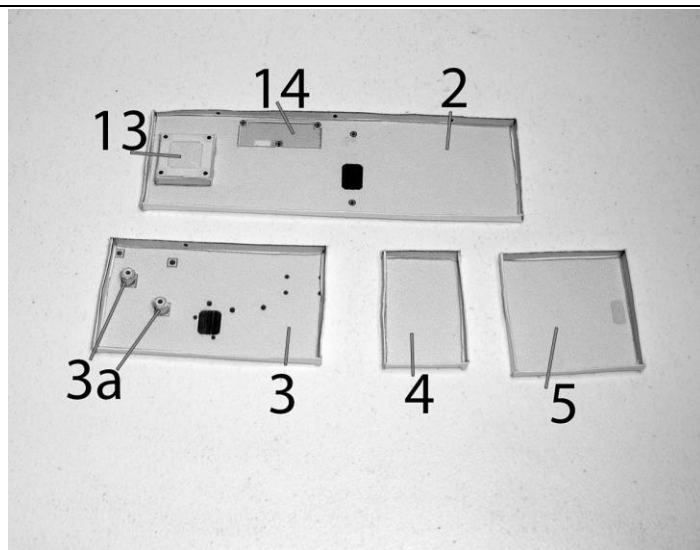

### NOTE

Instructions will work for the Detailed and Easy versions of the model

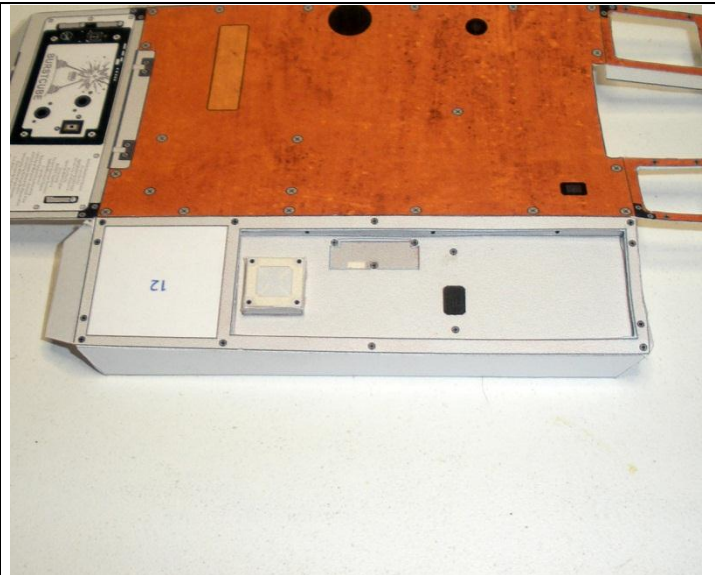

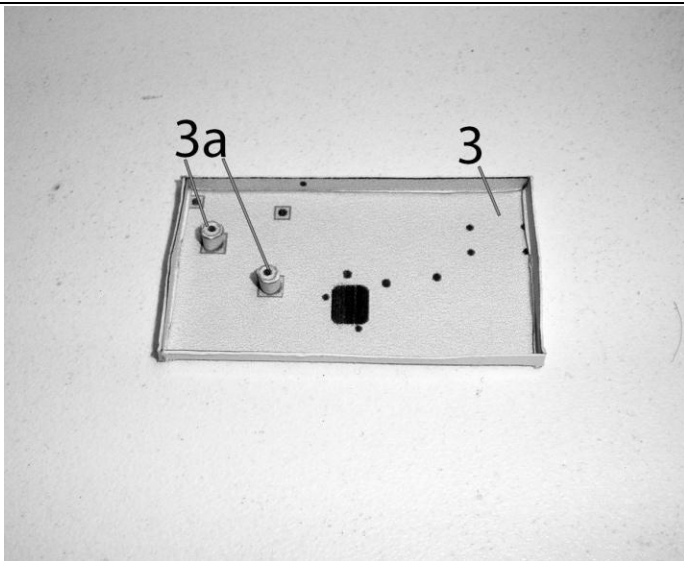

Cut out all blue areas from Part 1.  
EASY Version – just fold and glue to a box.

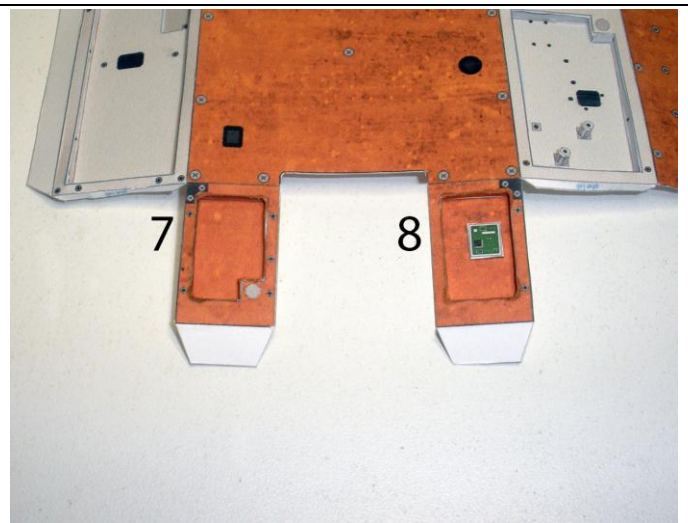

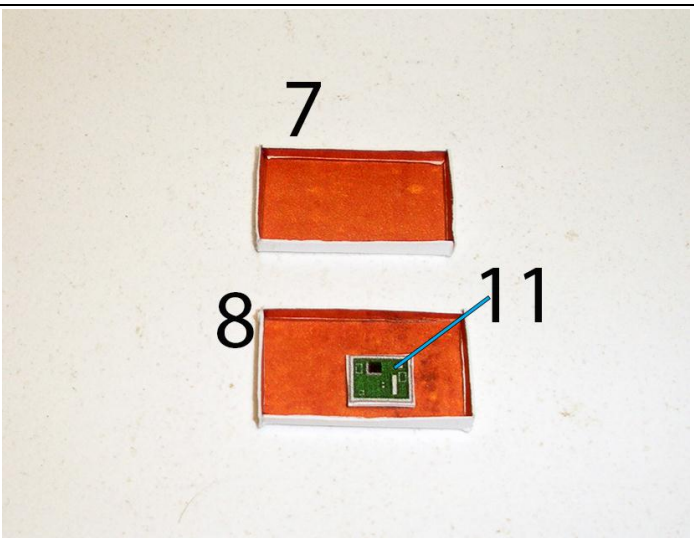

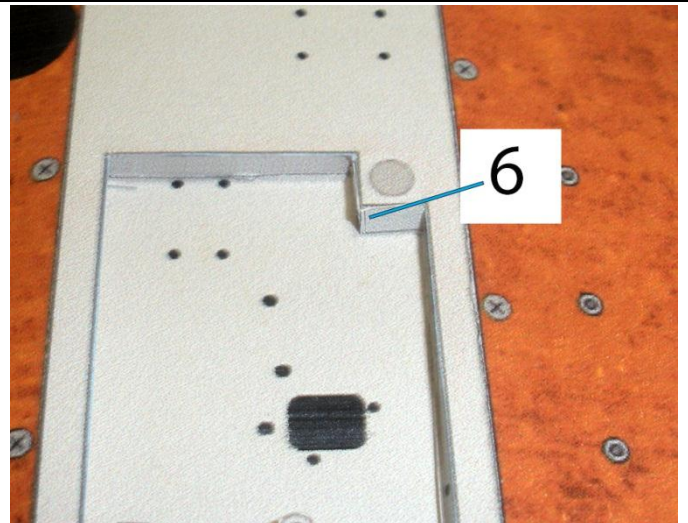

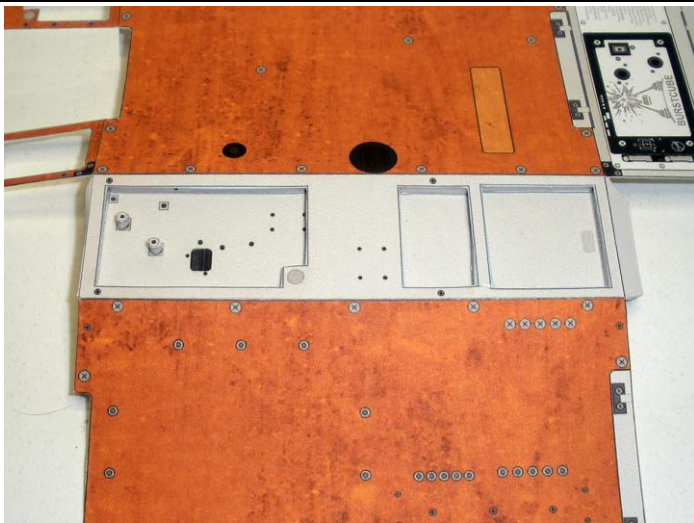

Score-fold the sides on Parts 2, 3, 4 and 5 UP with the color inside.

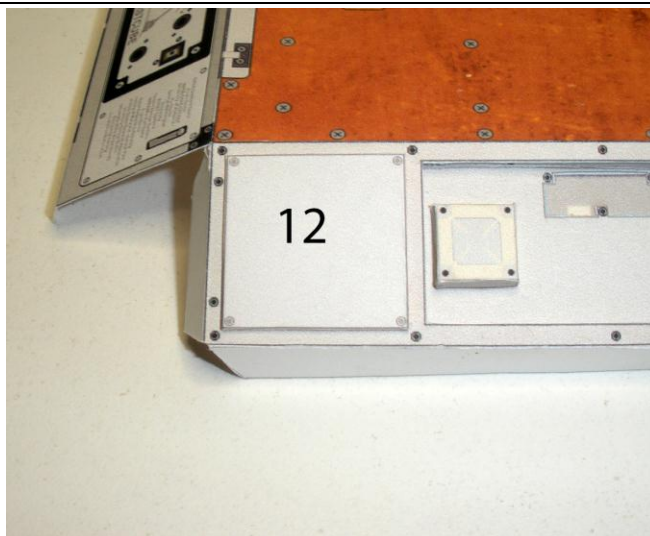

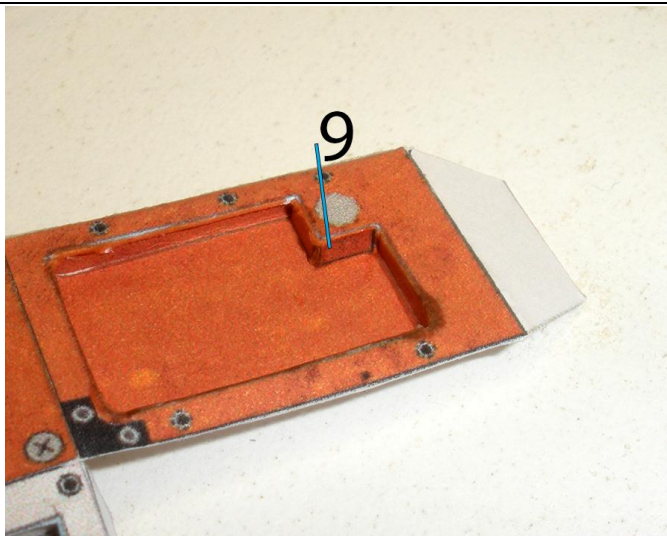

Cut out the blue area from Part 2, Glue Part 14 behind the cut out as shown on the next photo.

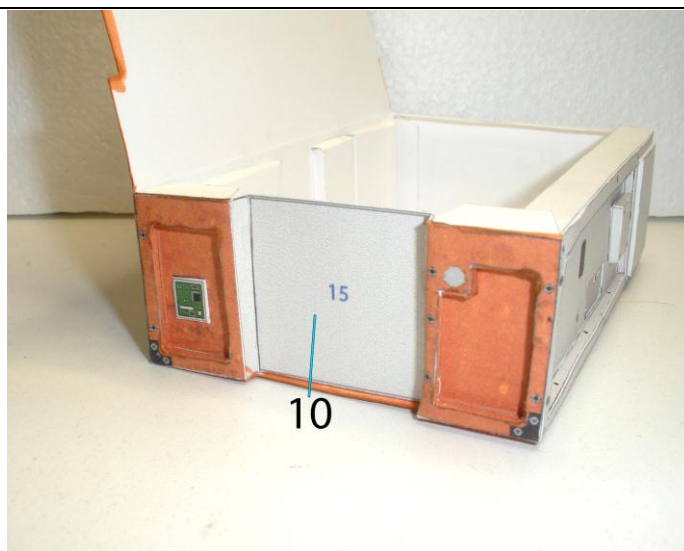

Carefully glue behind the cutout areas on Part 1 as shown.

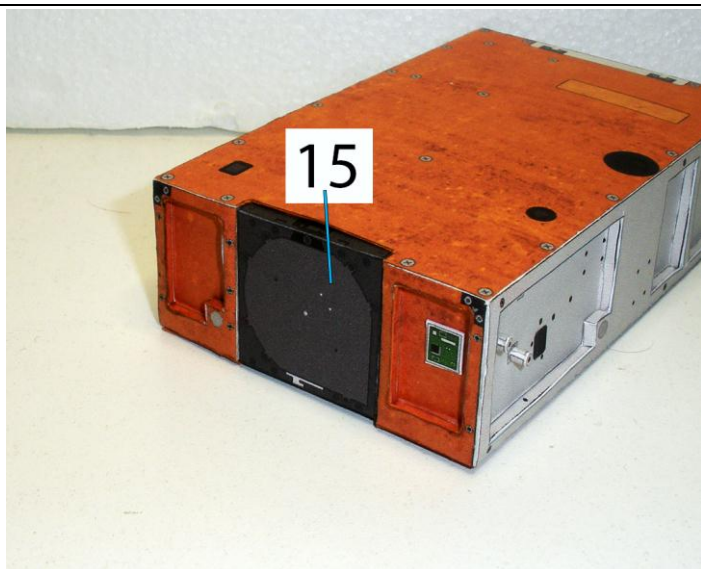

Glue behind the cutouts on Part 1 as shown.

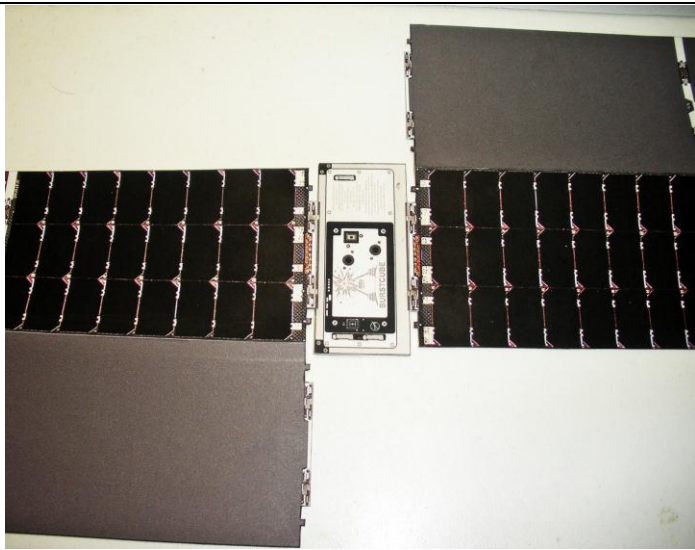

Part 12

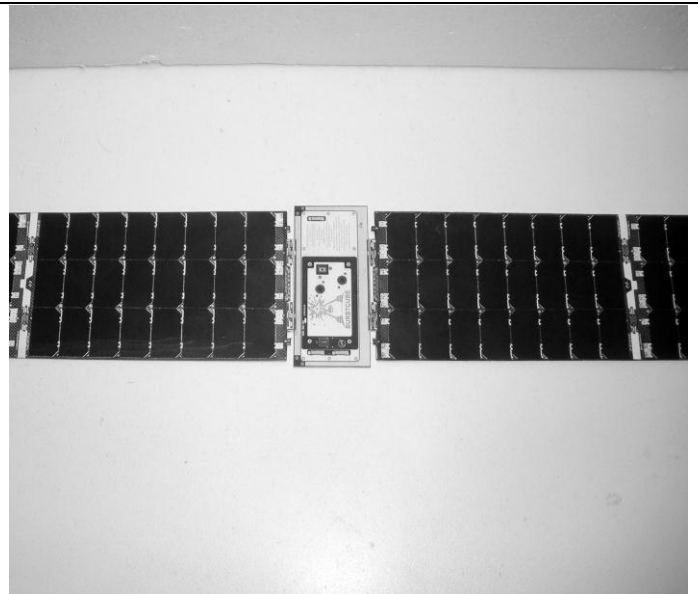

Score-fold the two sides on Part 10 UP with the color inside  
Glue in the gap on the back as shown, then close the body to a box.

Note the oreintation of Part 15.

Fold-glue 16 back-to-back. Glue the front face of the solar panels onto the glue tabs on 16 as shown.

Fold-glue the backside of the solar panels.

Glue the front of the body onto the backside of the solar panel. Match the graphics on the front side of the body with the graphics on the front of the solar panel.

Your model is done.
