

H3-22L and H3-22S
1/180 Scale Paper Model Instructions

NOTE: Keep all seams aligned for proper graphics placements on the model.

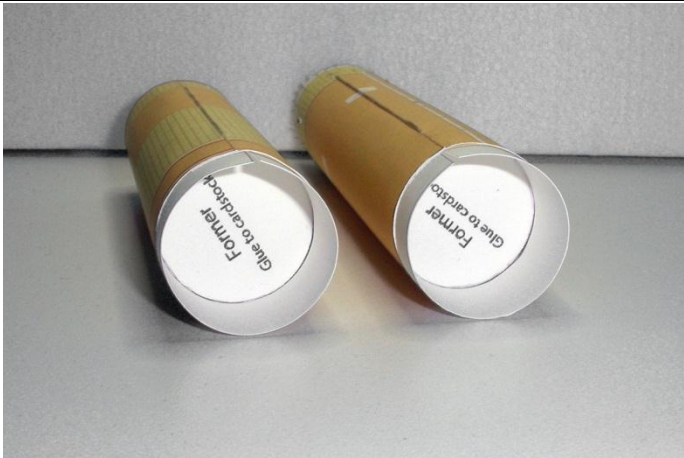

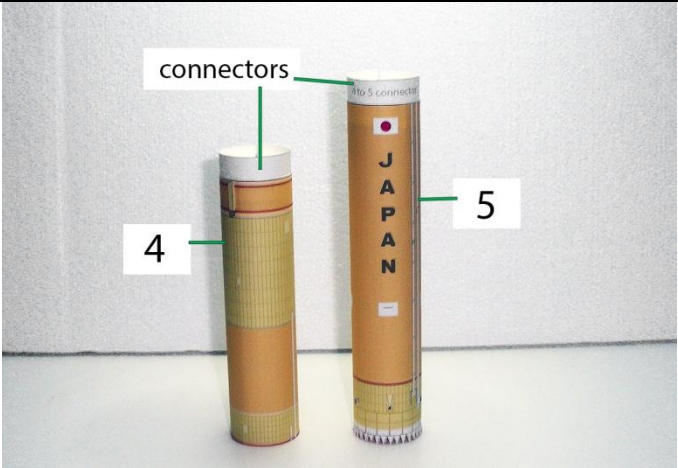

Short Fairing

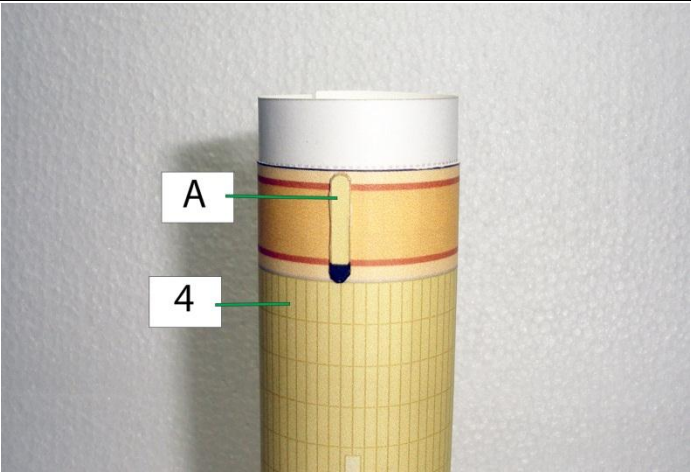

Long Fairing

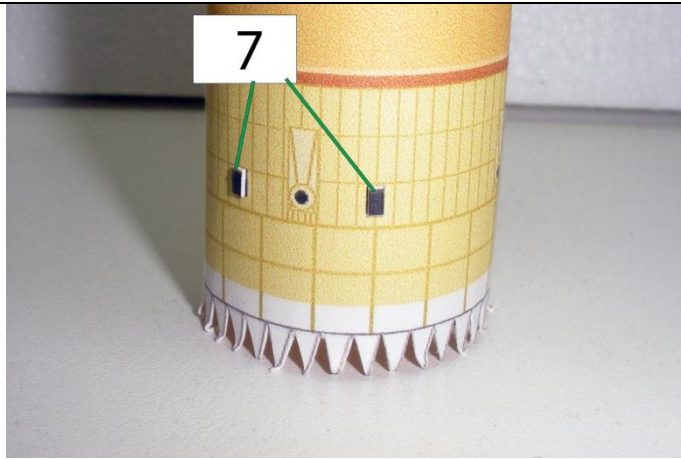

Form a round nose to part 1, add some glue inside to help hold its shape.

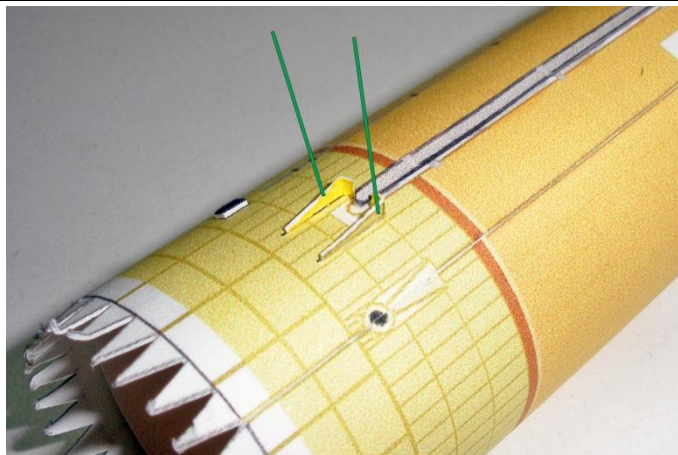

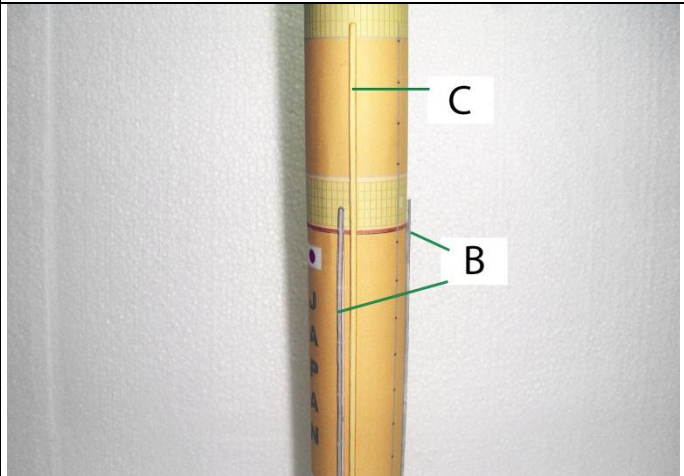

Glue the formers inside against the connectors.

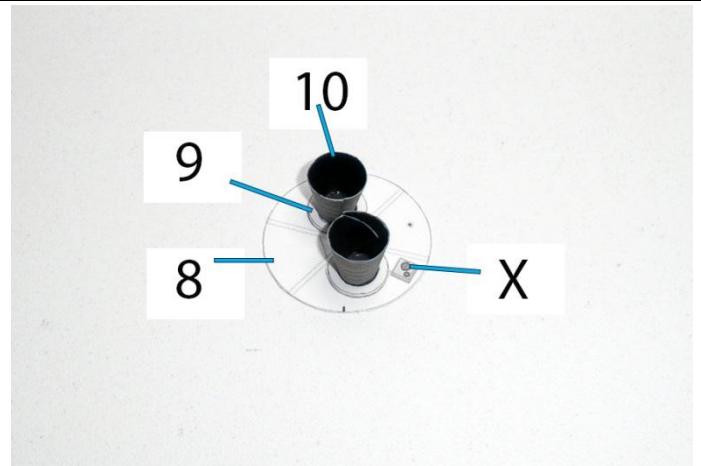

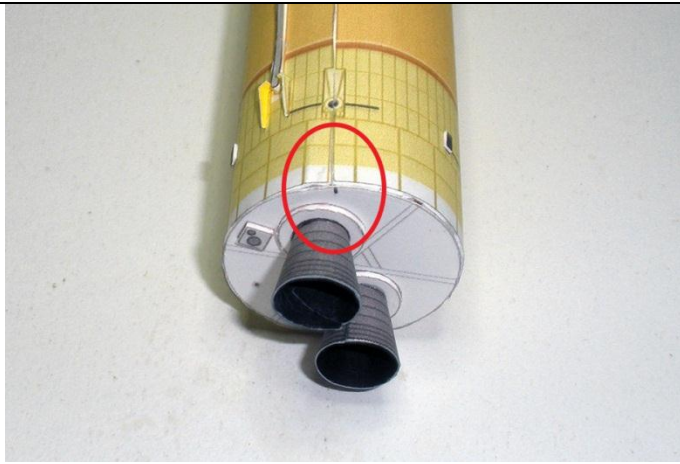

Glue 7 on the black squares near the bottom of part 5.

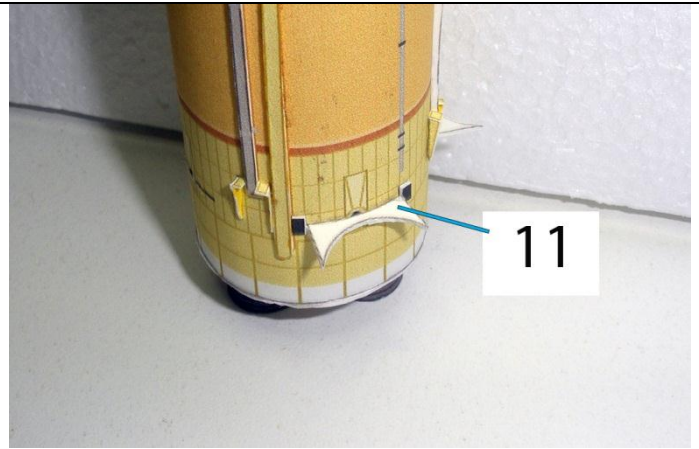

Glue on the black lines where the bottom end of parts B are located.

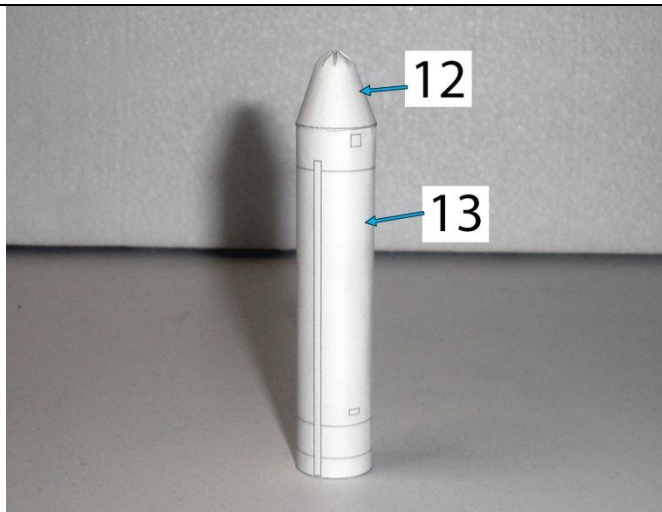

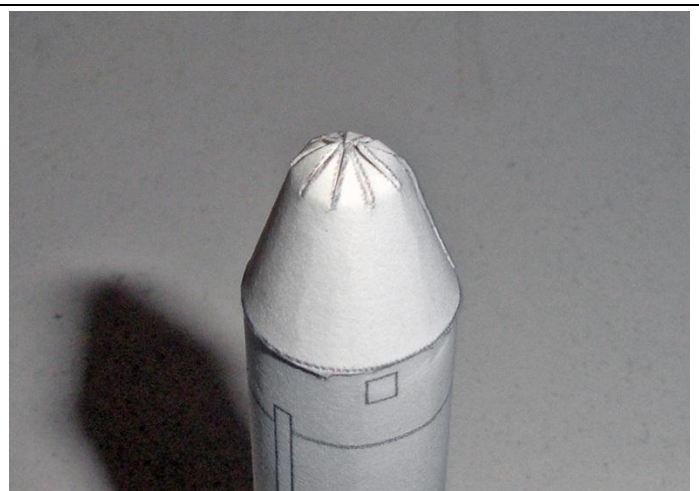

Match black marker on on 8 to the seem.

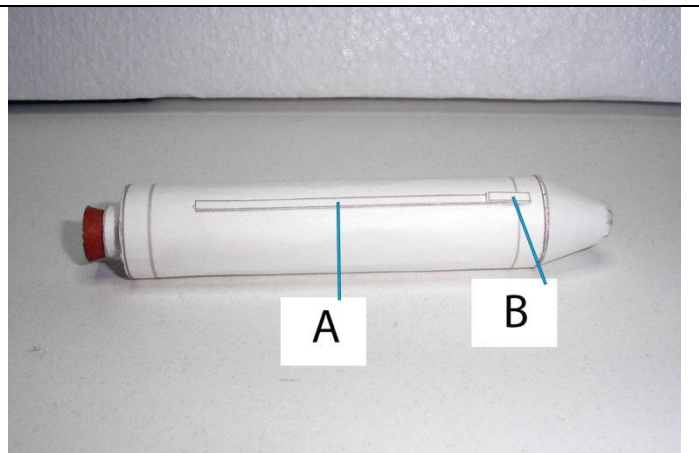

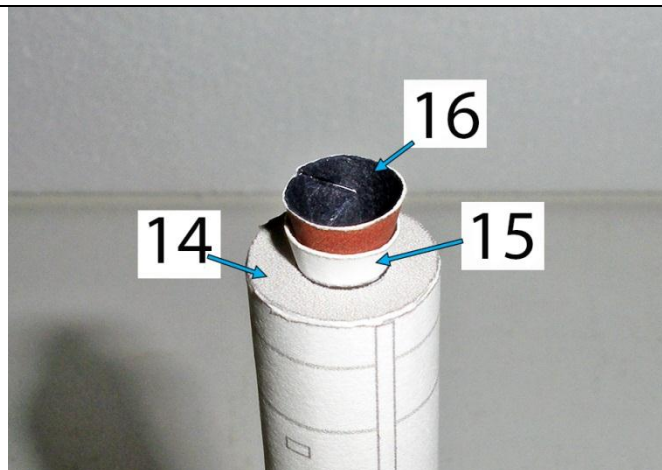

Glue on the thick black lines, 2 places near the bottom to hold the boosters in place.

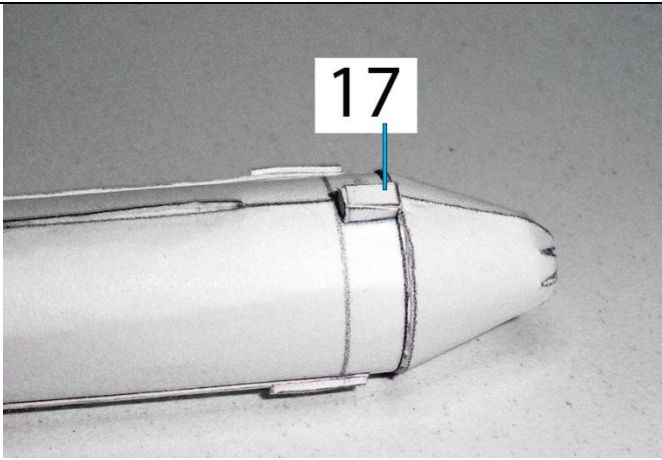

Boosters

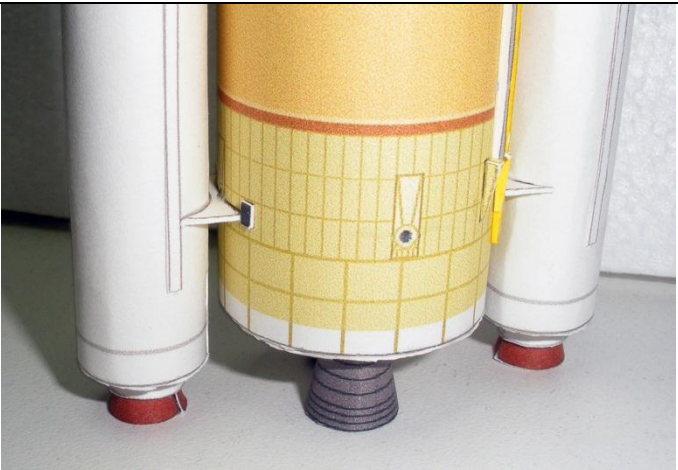

Form a round nose to part 12, add some glue inside to help hold its shape.

Glue on the blue aquare.

Glue the thick black lines on the boosters onto the bottom brackets (parts 11) and parts 17 on the booster onto the middle on the white aquares on the core (see next photo).

Your models are done.
