1/50 Scale Paper Model Instructions

Note:

The model shown in these instructions is a test build model, Modifications were made to correct some features (particularly the bottom of the spacecraft) to match the real thing.

These instructions will work for both the detailed and easy versions.

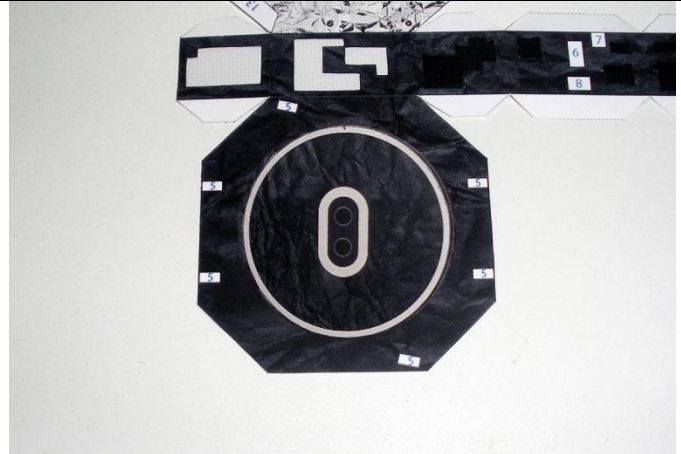

Cut out the blue areas from part 1. Glue **Parts A** to backside of the 3 areas with the **Red** arrows. Glue **Parts B** to the backside of the other 4 areas as shown.

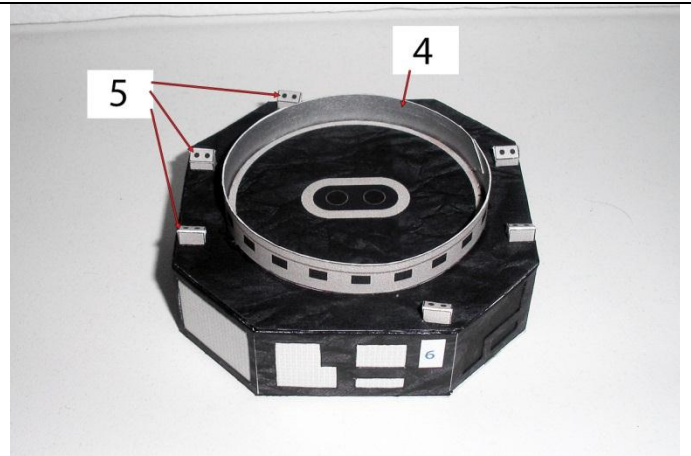

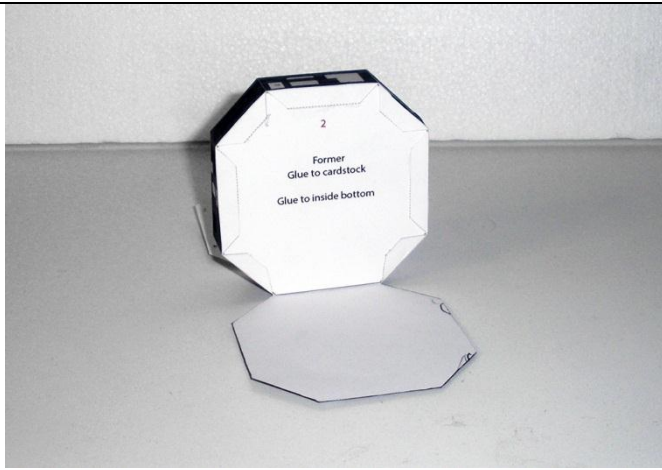

NOTE: No need to cutout the blue areas on part 1 and use parts A and B for the Easy version.

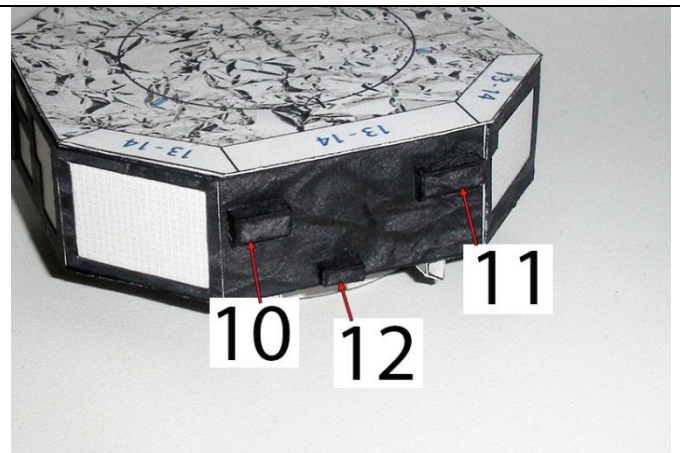

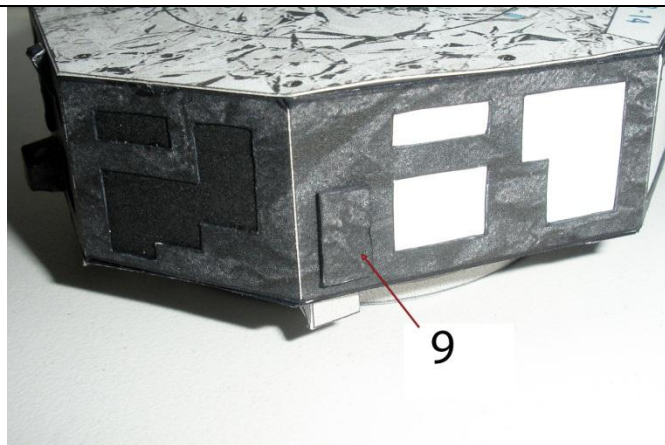

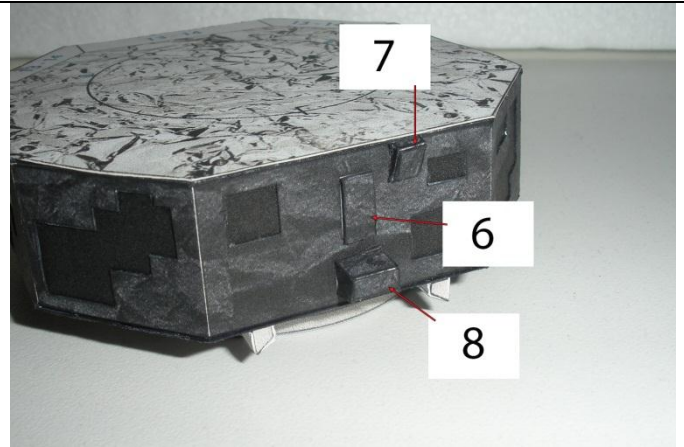

Glue **part 3** to the bottom matching the two markers.

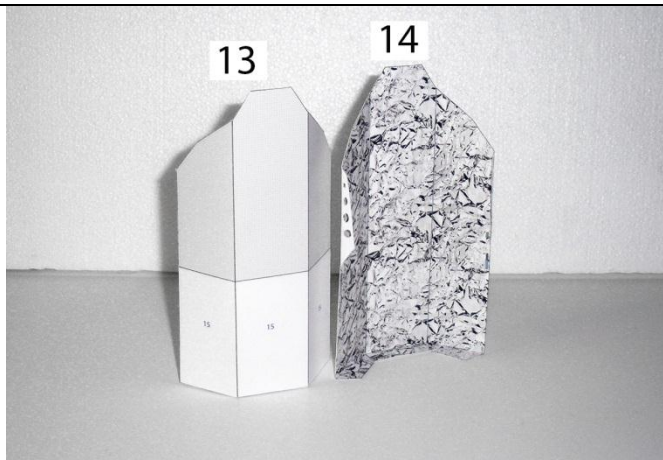

Note: the bottom was rotated 90 degrees on the corrected model to fix the locations of the parts to match the real spacecraft.

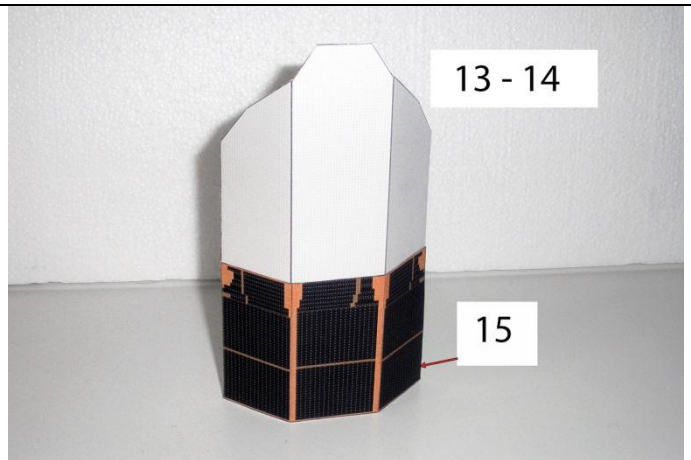

Part 4 fits around part 3, note the location of the dots on part 5.

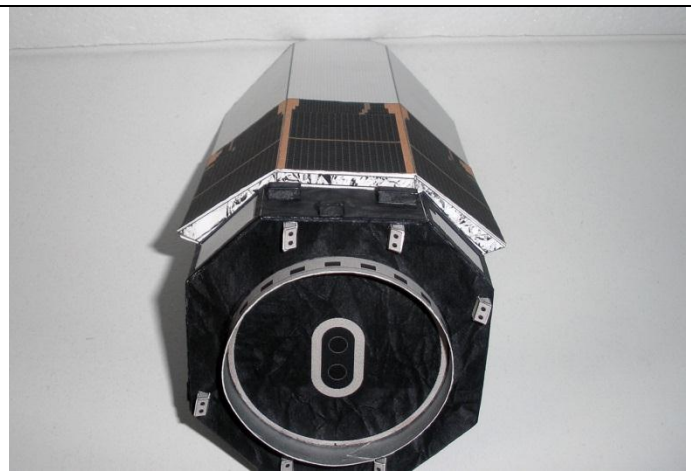

Glue **13** and **14** back-to-back. Fold the side tabs with the 4 holes inward.
No need to cut out the blue areas on the side tabs for the Easy version.

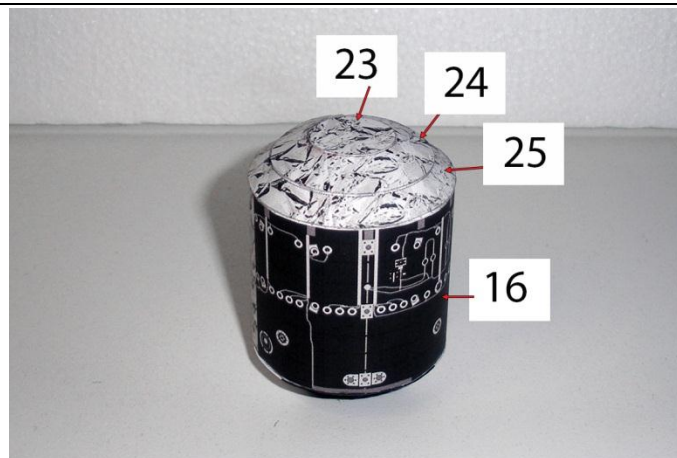

Glue **15** to the back as shown.
Note: no need to do this for the Easy version.

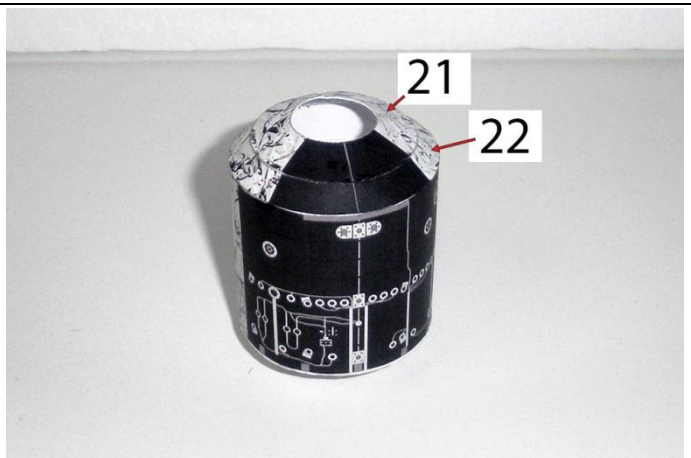

Glue onto the top on the labeled tab areas as shown.

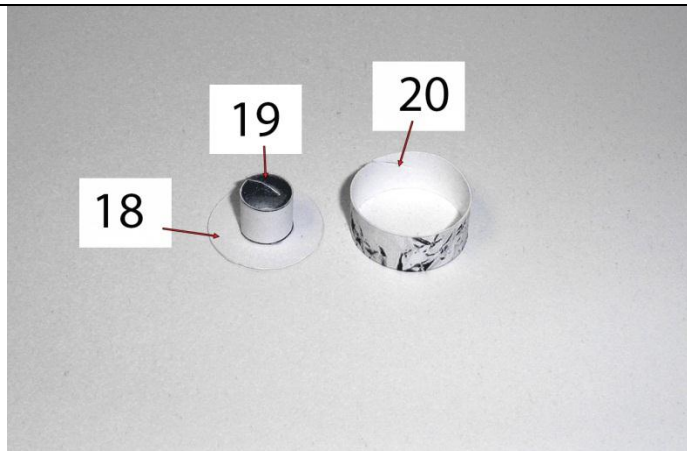

Bottom view.

Part 16 Bottom...
Match all seems together.

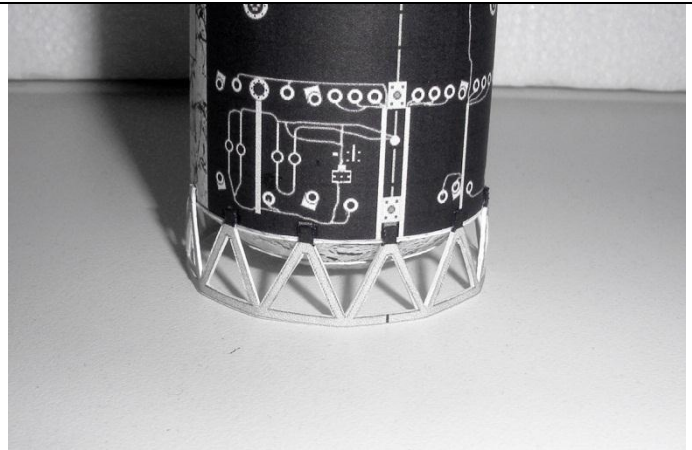

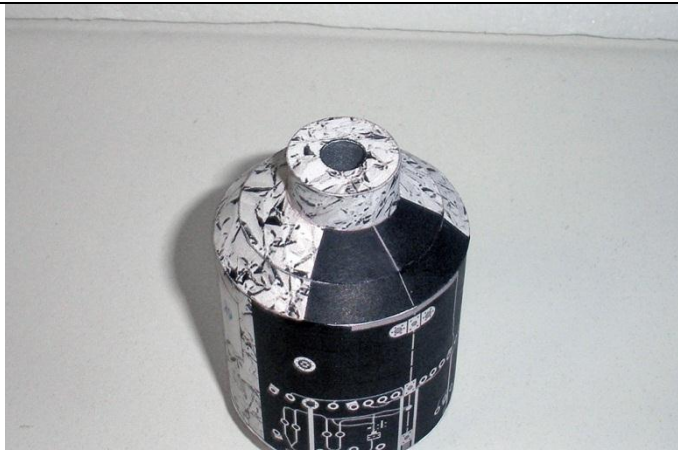

Top...
Match all seems together.

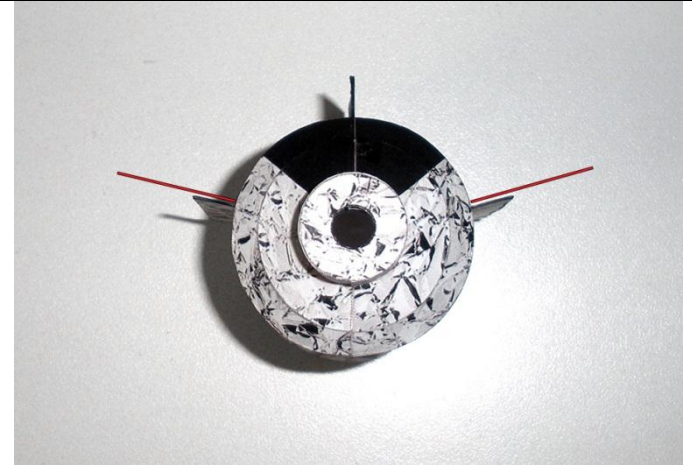

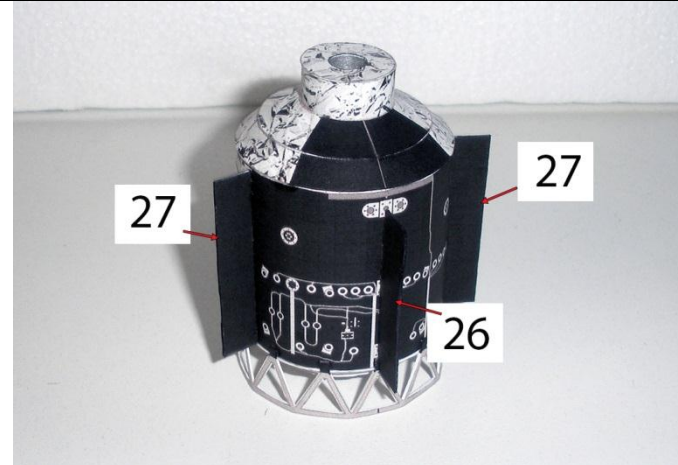

19 is glued to backside of **18**.

Note: Easy Version does not of a part 19, only glue 18 to the top of 20.

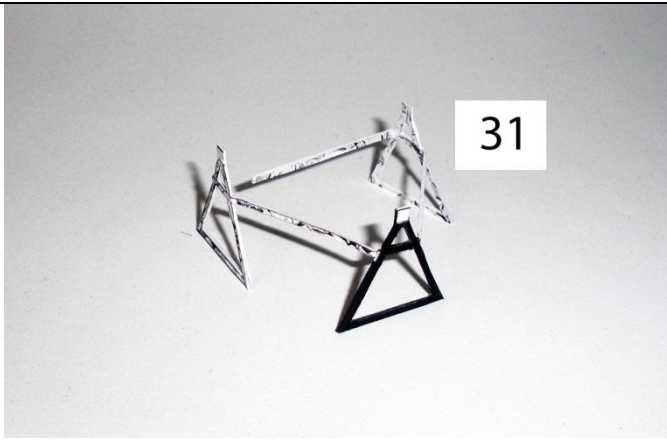

Part 17, NOTE: glue the struts with the black tabs onto the grey squares (black section) on the front as shown, the rest are glued on the white squares.

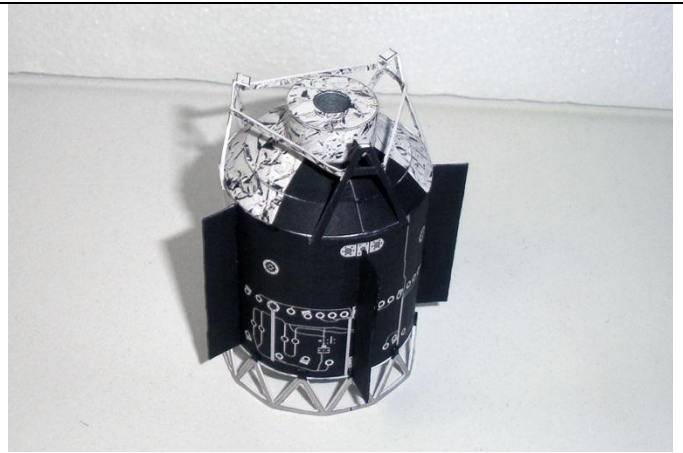

Parts 27 are glued on the line that separates the foil and black sections, **Part 26** is glued on the grey dotted line at the center.

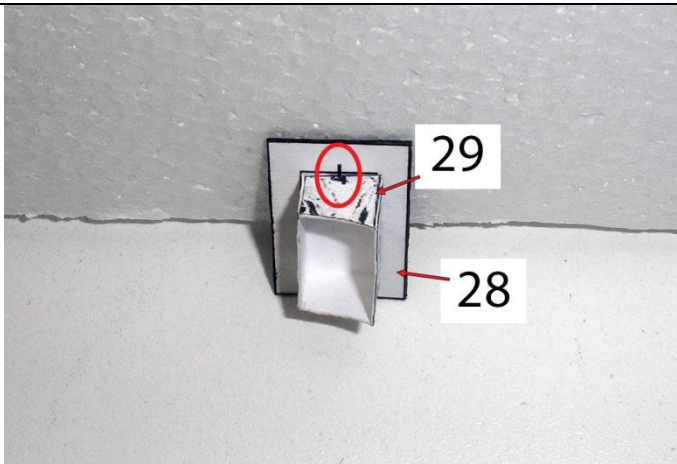

Note the angle of the two side parts (parts 27).

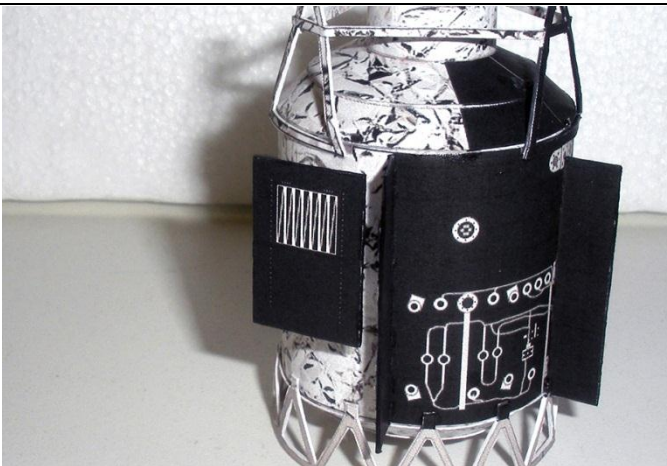

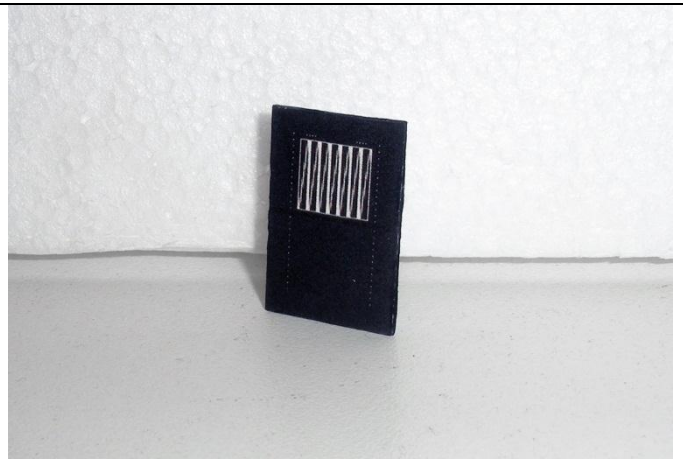

31

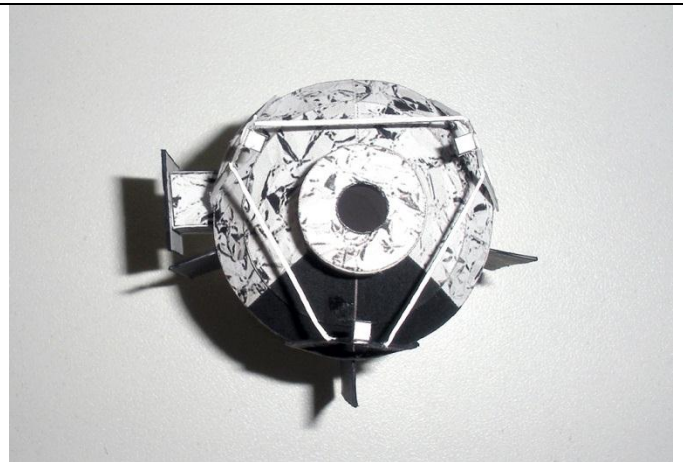

Glue on the 3 thick grey lines at the top edge, the black strut is glued at the black section as shown.
Note: Fold the top tabs on 31 downward.

Match the two markers (red circle).

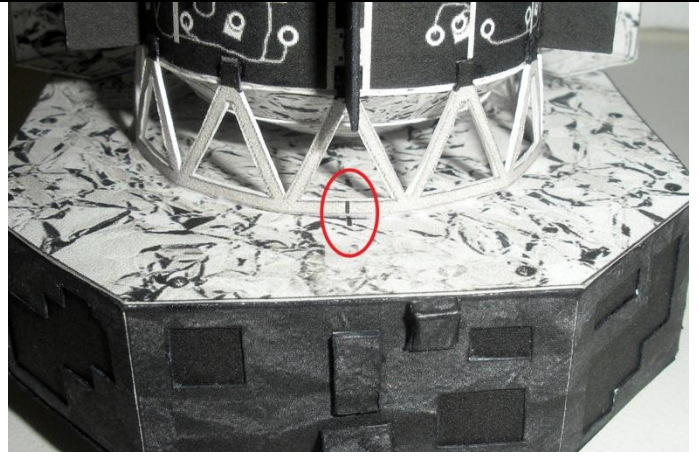

Glue on the area labeled "29" as shown.

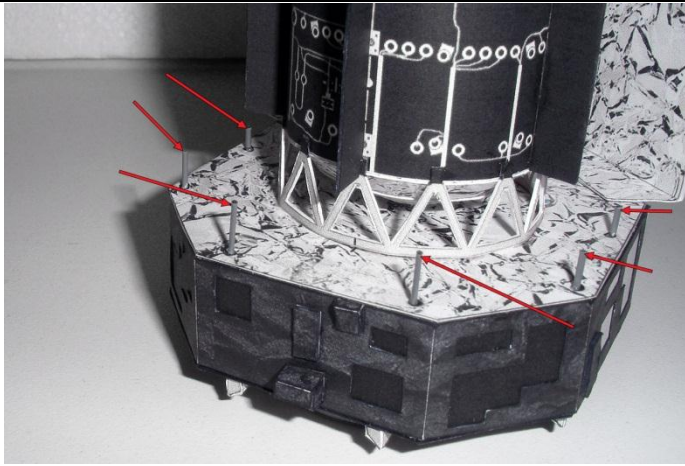

Top view.

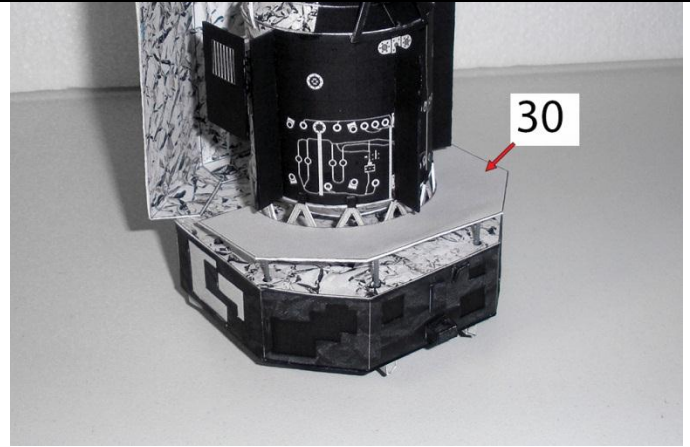

Glue on the circle on the top of the body.

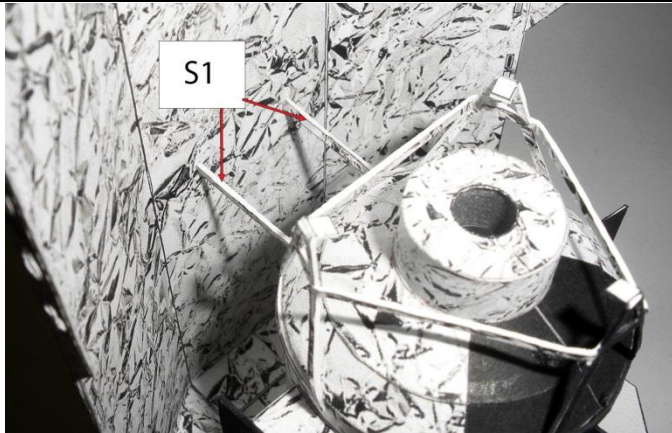

Match the two markers

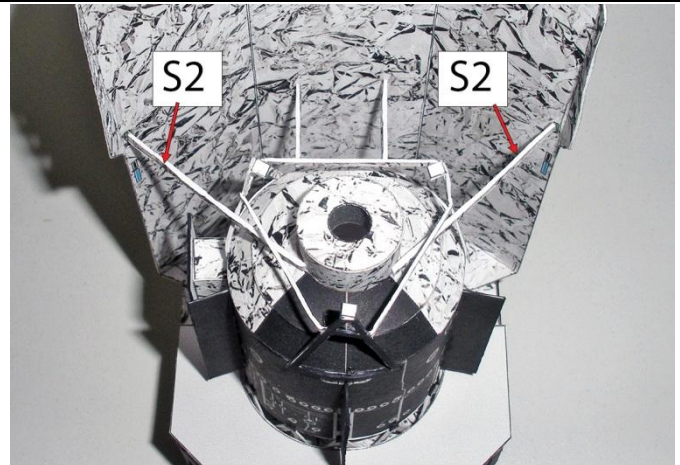

Prepare the six struts according to the instructions of page 3 on the parts file.
Glue on the six pin holes with the longer struts at the front and the shortest struts at the back as shown.

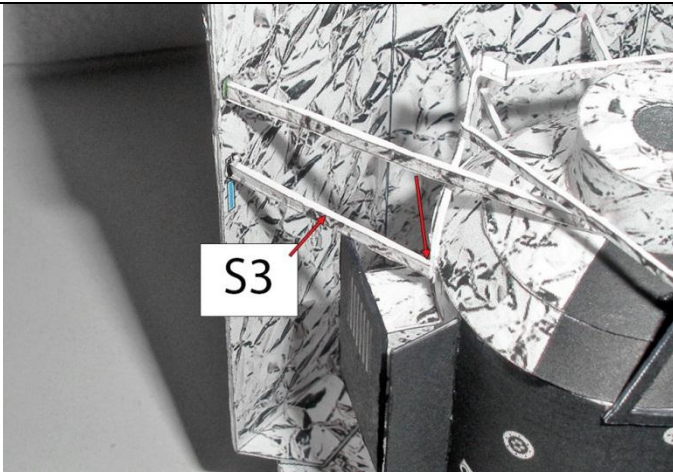

Glue **30** on the struts and against part 17 as shown.

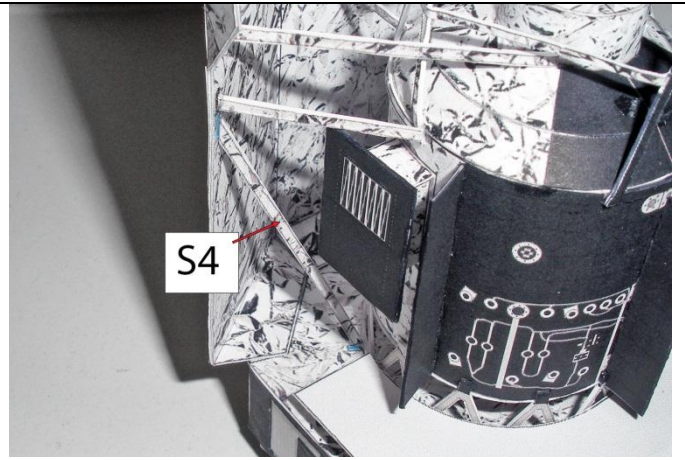

Glue one end of **S1** onto the **Red** marker on the back panel and the other end to the top edge of Part 16 as shown.

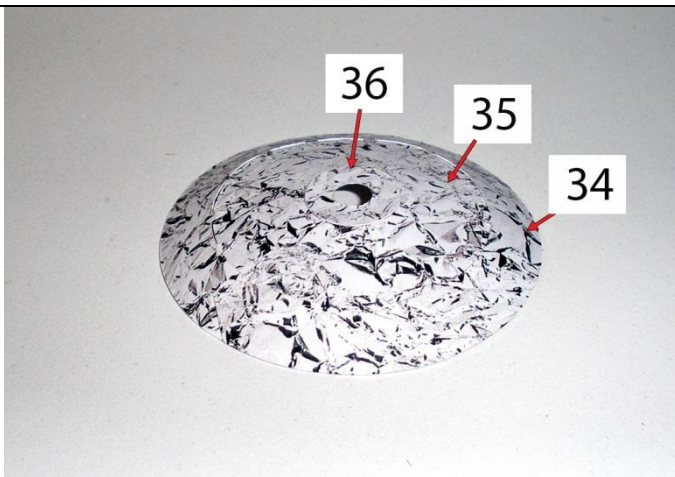

Glue one end of **S2** onto the **Green** marker on the back panel and the other end to the bottom edge of Part 20 as shown.

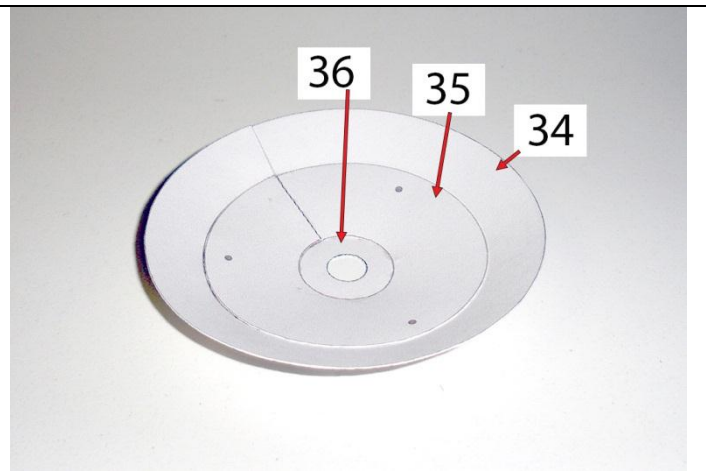

Glue one end of **S3** onto the **Black** marker on the back panel and the other end to the top-side edge of Part 16 as shown.

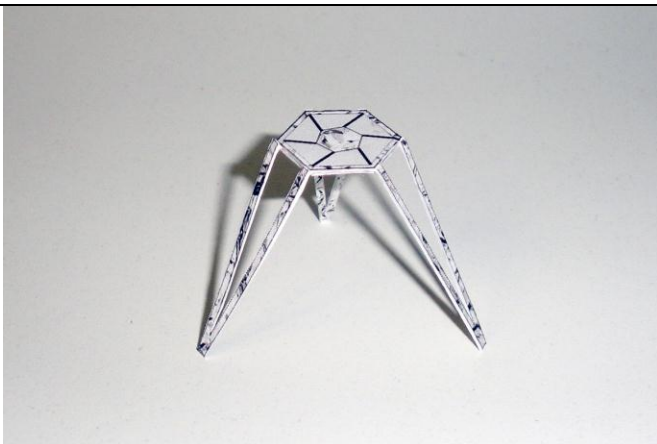

Glue the long-angled end of **S4** onto the **Blue** marker on the back panel and the other end on the **blue** marker on the bottom as shown.

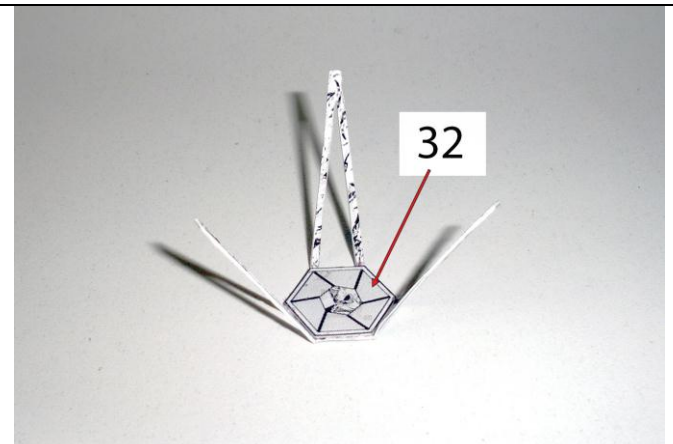

Backside... Print the graphics on page 7 to the backside of the parts on page 6 then cut the parts. Cut out the blue circle from **36**.

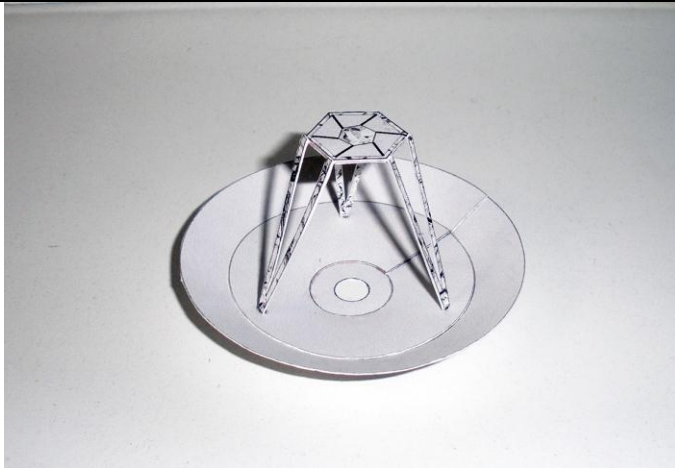

Important... **35** is glued on inside of **34** using the glue tabs on **34**. Glue tabs will appear at bottom side of the dish. **36** is glued on the backside of **35**.

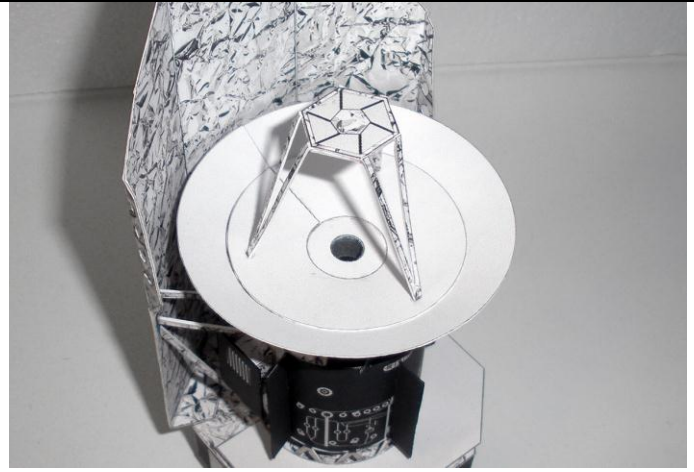

Part 33 - 33a

Glue **32** to backside.

Glue on the three grey dots.

Match the cutout circle on the dish with the opening on top.
Easy version.. match the cutout circle on the dish with the
 grey circle on top.
 NOTE: The seems on the dish is facing to the back panel as
 shown.

Top view.

Your model is done.
