

Jielong-2 (Smart Dragon-2)

Artist drawing

The Jielong II rocket has a maximum diameter of 2 meters, a total length of 21 meters, and a total weight of 60 tons. The carrying capacity of the sun-synchronous orbit launched to a distance of 500 kilometers from the ground is not less than 500 kilograms; the fairing can be used in two configurations with an outer diameter of 1.6 meters and 2 meters. Jielong II plans to complete the first flight test in 2020, and will strive to achieve an annual launch capability of 8 to 10 rounds in the future.
