

Juno - 1 RS-29 (UE) Launch Vehicle

1/62 Scale Papermodel Instructions

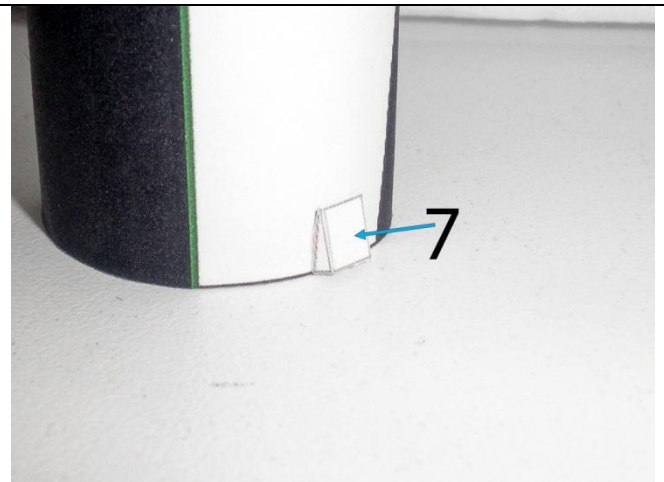

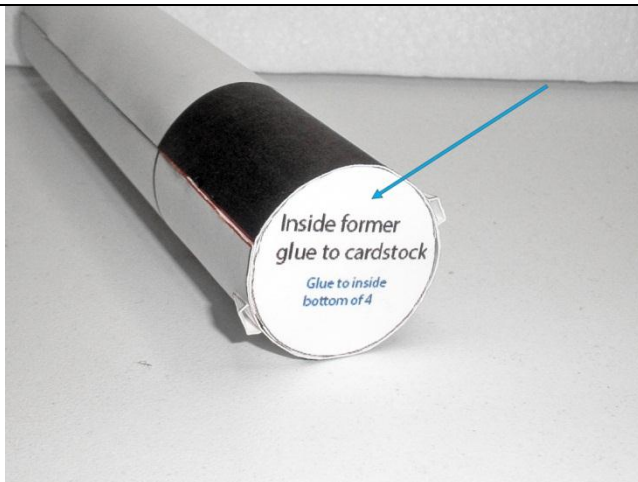

NOTE:

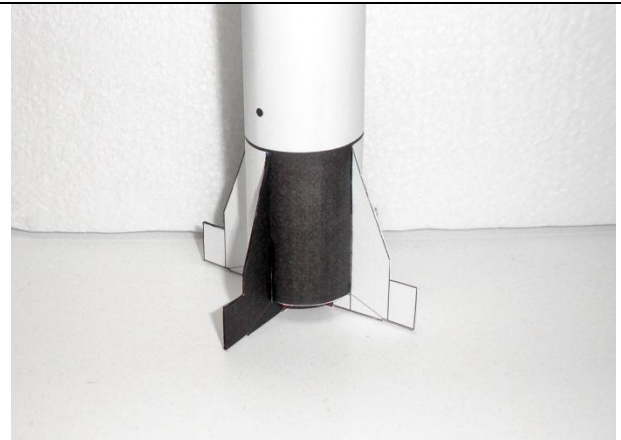

Your model is the updated model from the one used in the instructions. Will work for all Juno – 1 launch vehicles.

Keep all seems together

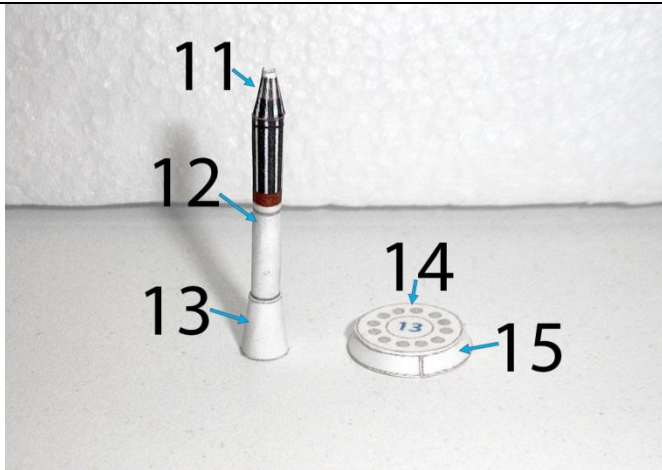

Glue to the bottom of part 4

Each fin is assigned a color, match each fin to the matching colored line on Part 4.

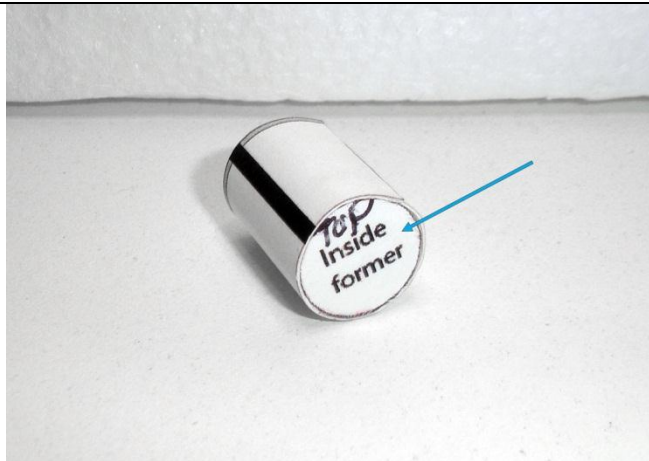

- A – Blue Line
- B – Grey Line
- C – Green Line
- D – Red Line (seem)

Keep all seems together
Slide 11-12 into the top of 13 to the grey line and glue in place.

Keep all seems together

Glue to inside top of 17 (grey line on 17 at the bottom).

Glue 16 onto the top and 18 on the bottom.

Keep all seems together

Glue onto the top of the rocket – keep all seems together.
The top should slightly fit into the bottom hole you cut out on 18 – this will help hold it in place better – glue together and let dry.

Glue to two halves together using the 3 to 4 connector while keeping the seems together.

Your model is done.
