

Long March 5

1/130 Scale Paper model Instr

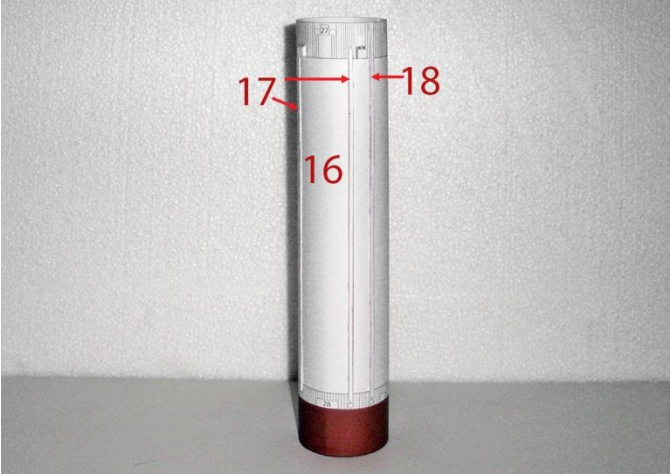

Keep all seems aligned, glue **Part 8** onto the labeled areas on **Part 7**.

Glue the former at the inside bottom against the 9 to 16 connector.

Glue **Parts 10 – 15** on the labeled areas on part 9.

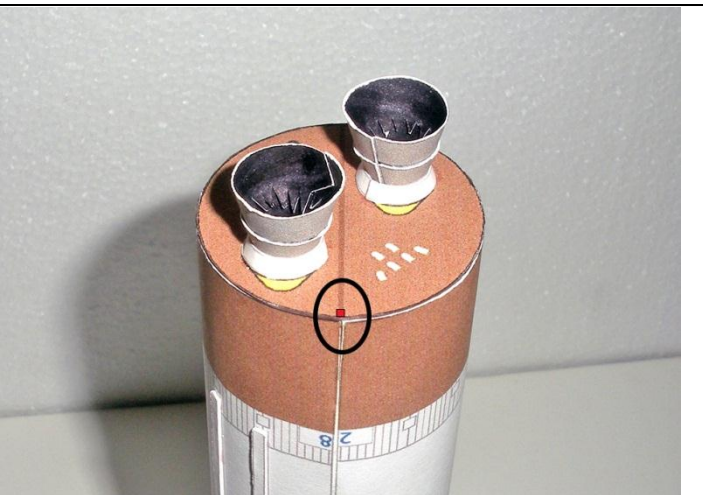

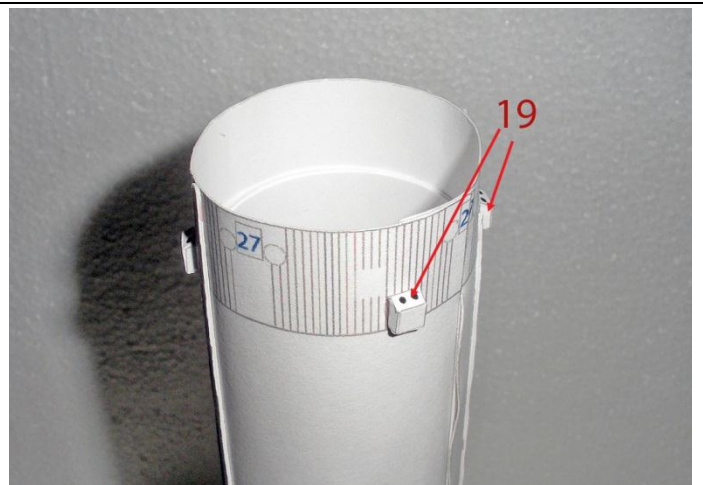

Keep all seems aligned.
Set this to the side for later.

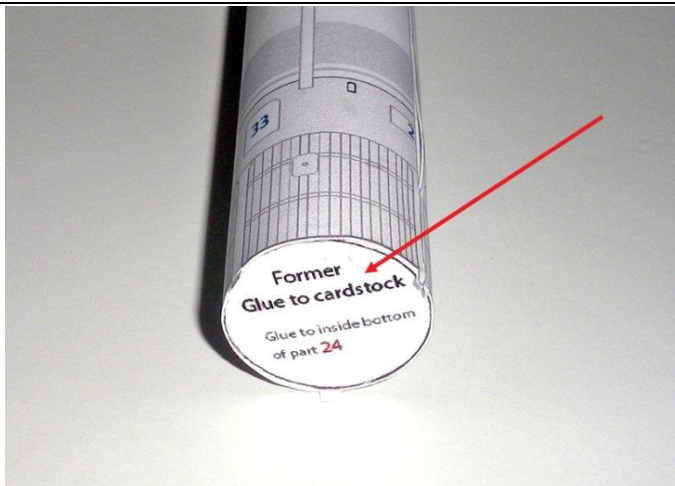

Core Stage.

Glue at the bottom as shown.

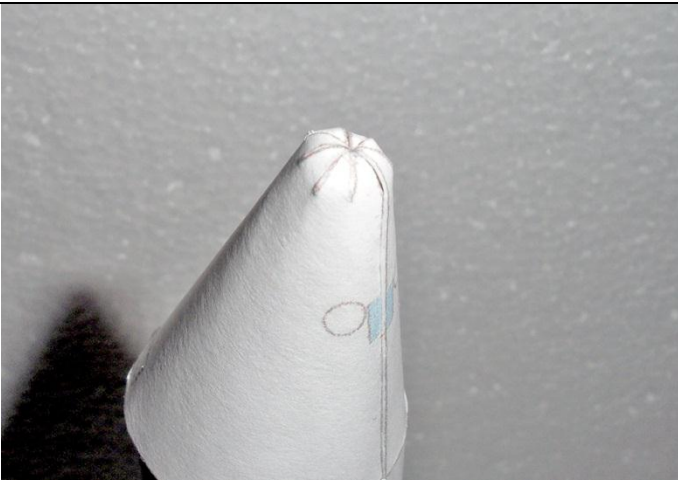

Glue on the bottom, match the red marker to the seem on 16.
Core Stage is done.

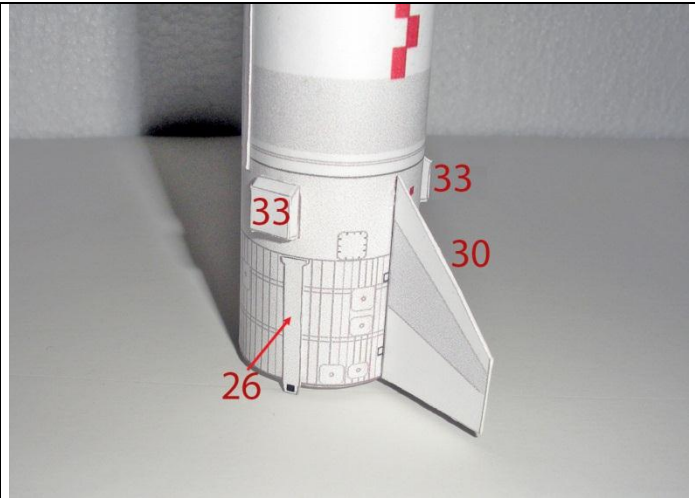

BOOSTERS
Roll **Part 24** to a tube. Insert and glue the former inside bottom as shown.

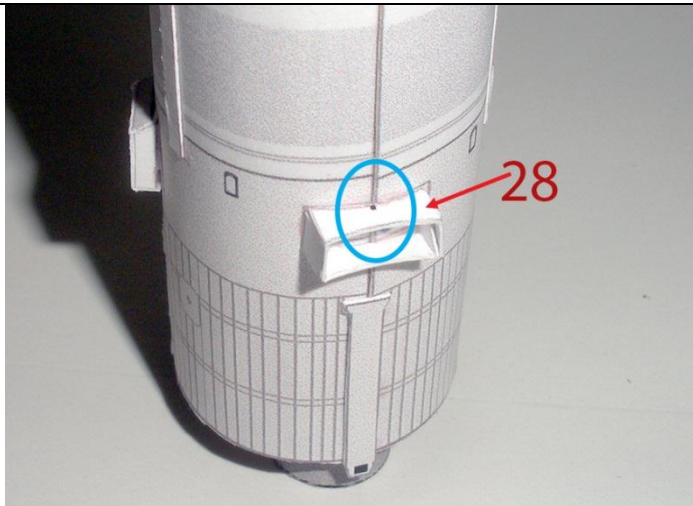

Glue 25 to the top. Matching the two seems on part 24 and 25.

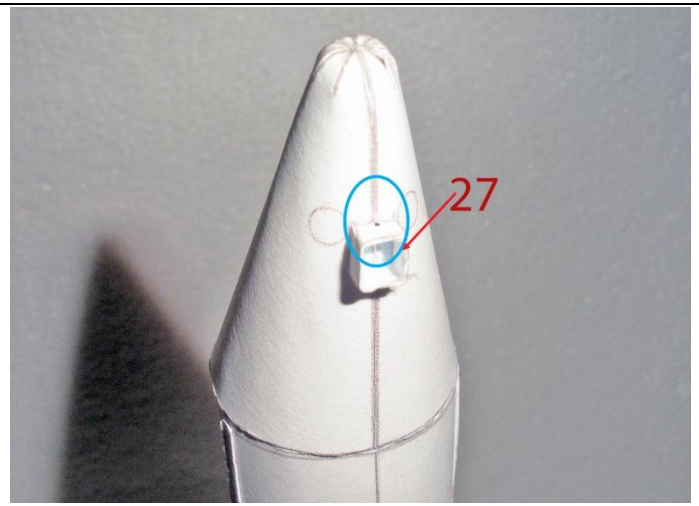

Top of 25, applying some Elmer's Glue inside will hold the shape together.

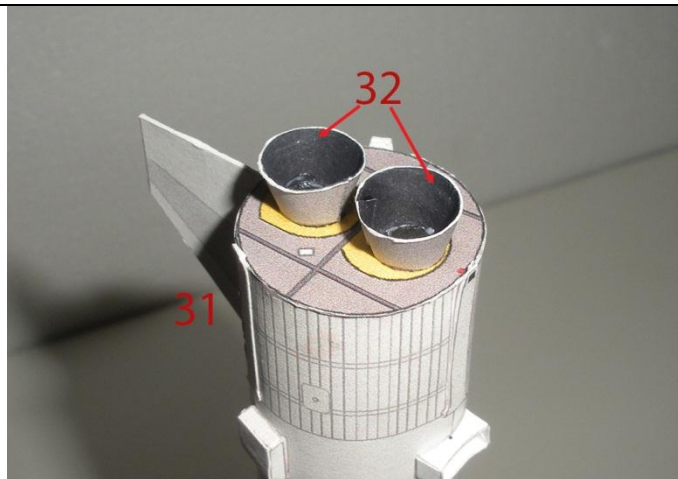

Glue the Fin (**Part 30**) to the black line.

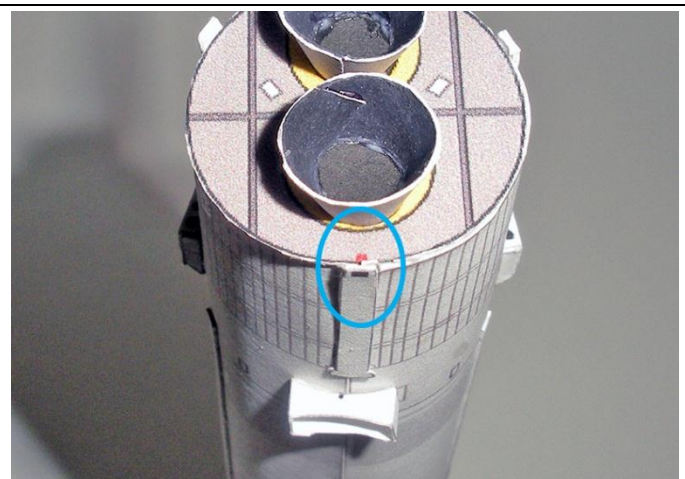

Match the black marker on 28 to the seem on the booster.

Glue **Part 27** to the **blue rectangle** on the nose cone. Match the black marker on 27 to the seem on the nose cone.

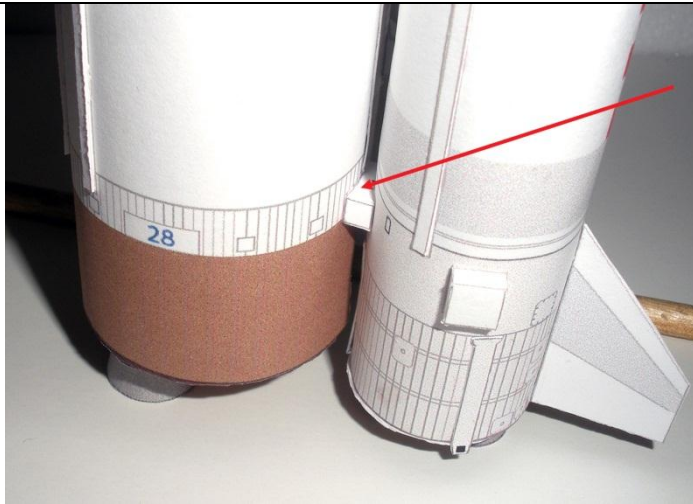

Glue this to the bottom.

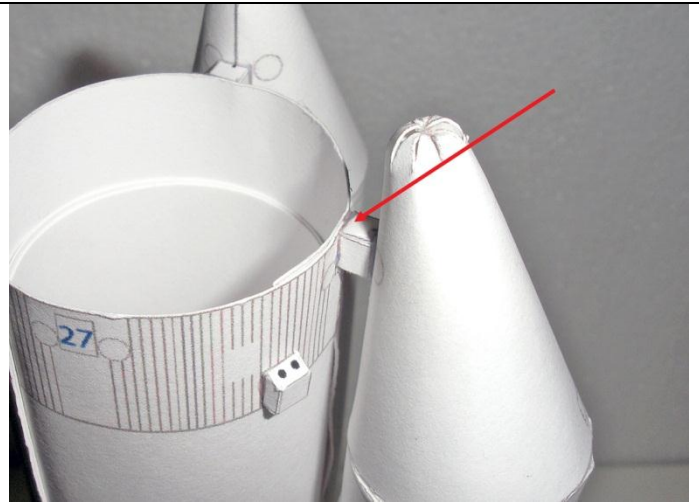

Match the **red marker** with the seem.

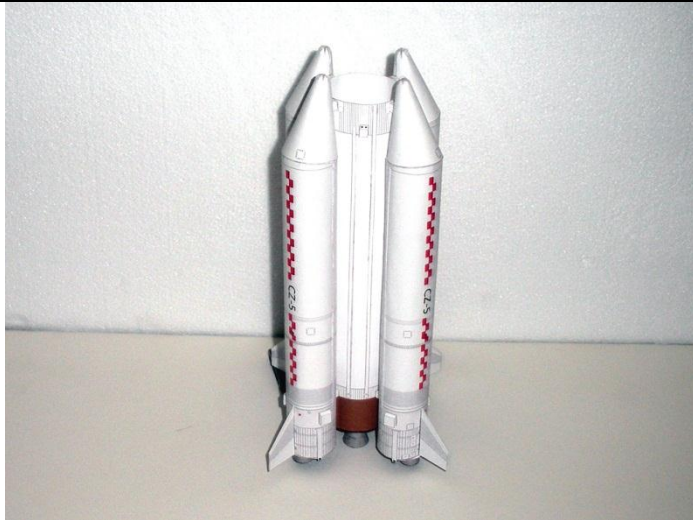

Make four boosters.

Glue the bottom bracket (Part 28) to the area labeled "28" on the core stage.

Glue the top bracket (Part 27) to the area labeled "27" at the top of the core stage.

Glue the top parts to the core and booster section while keeping all seems aligned.

Congrats, your model is done.
