

OSCAR-1 and OSCAR-2

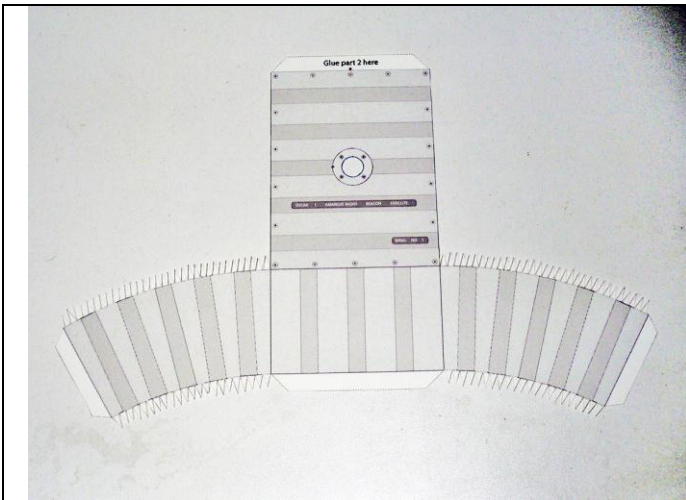

$\frac{1}{4}$ Scale Paper Model Instructions

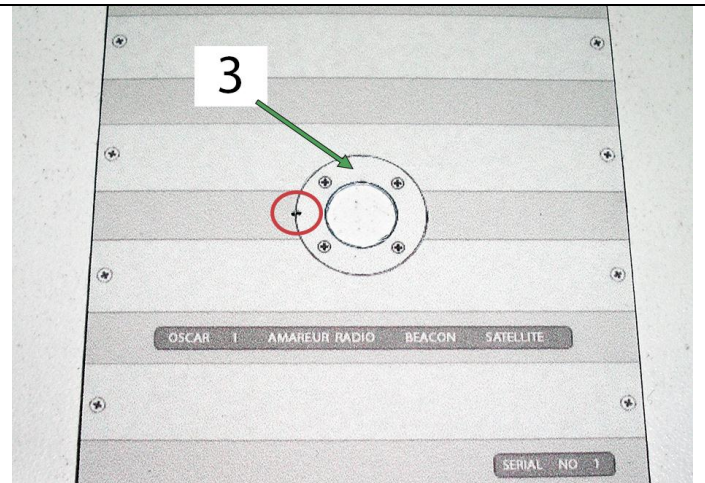

OSCAR-1

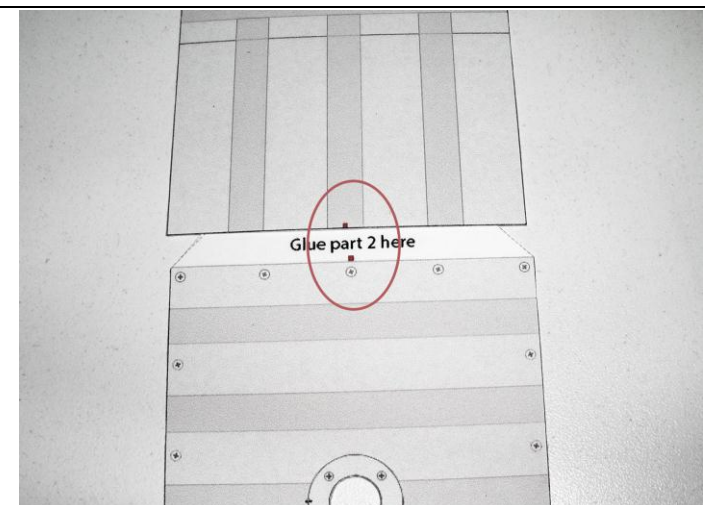

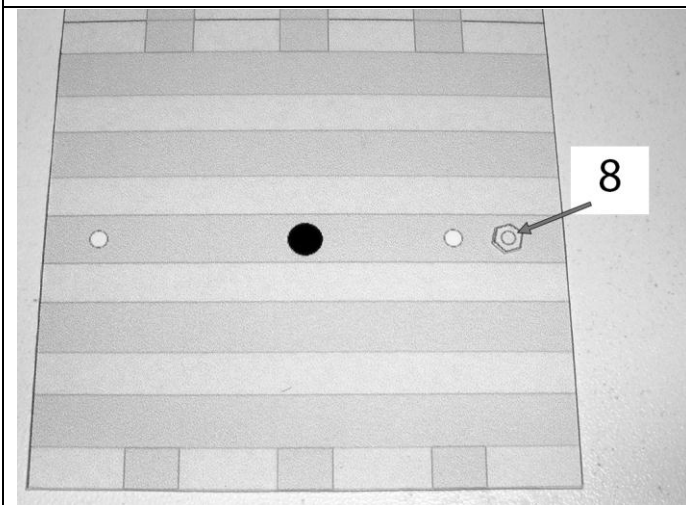

OSCAR-2

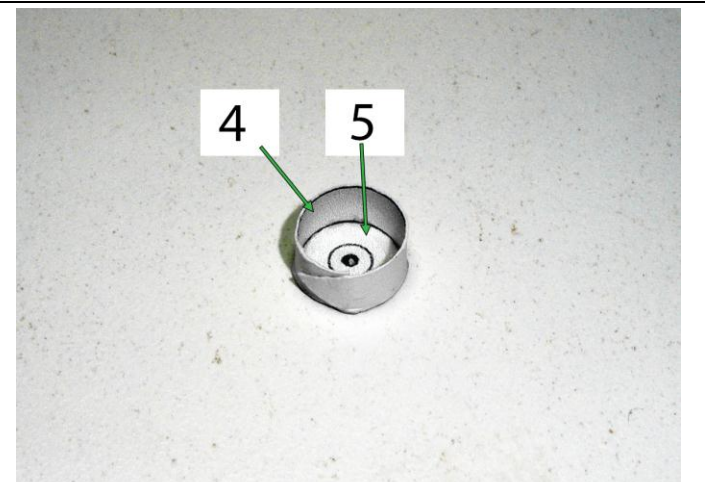

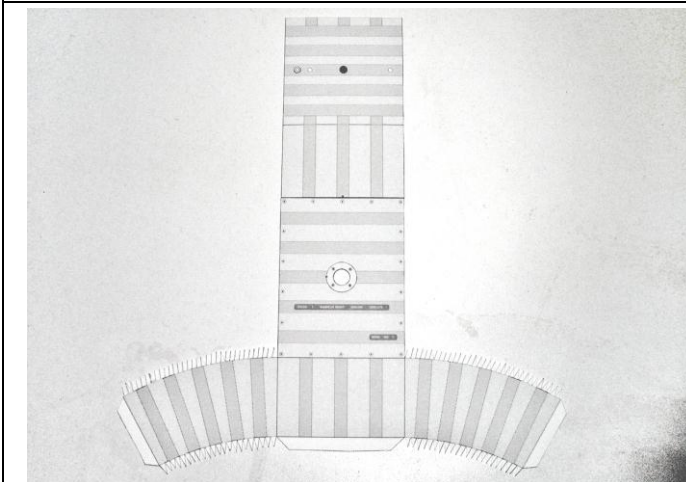

Cut out the blue circles from parts 1 and 3.

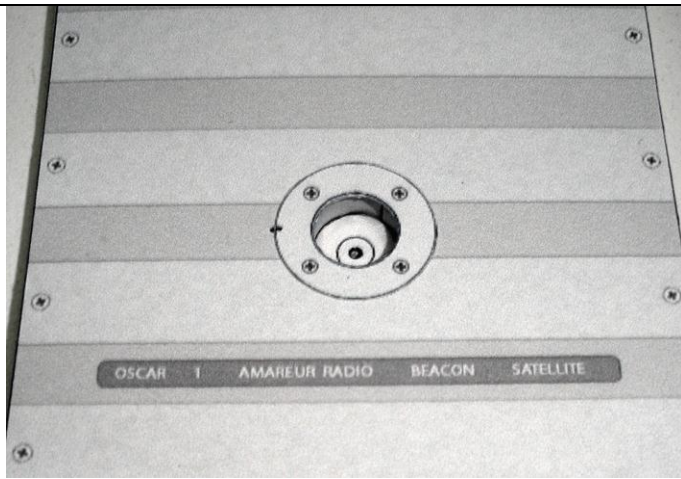

Match the two black markers.

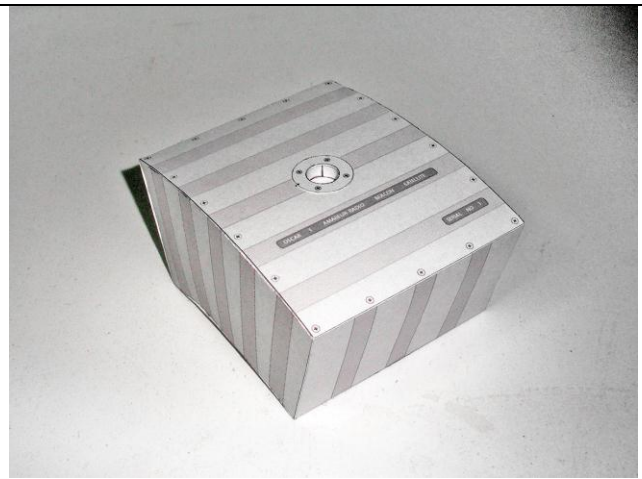

Glue part 2 to part 1
Match the two red markers.

Poke small hole on the black dot on 5, this will help hold the antenna in place.

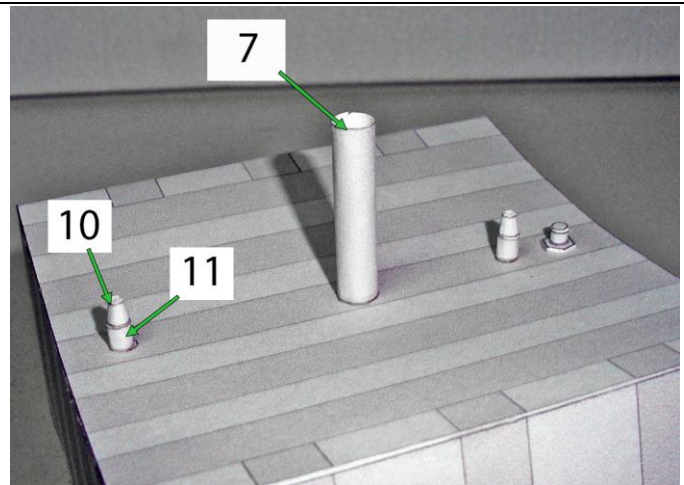

Glue to the backside of the opening as shown.

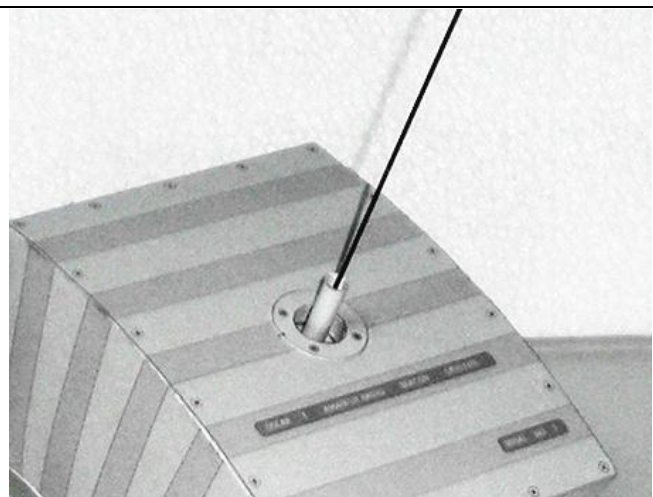

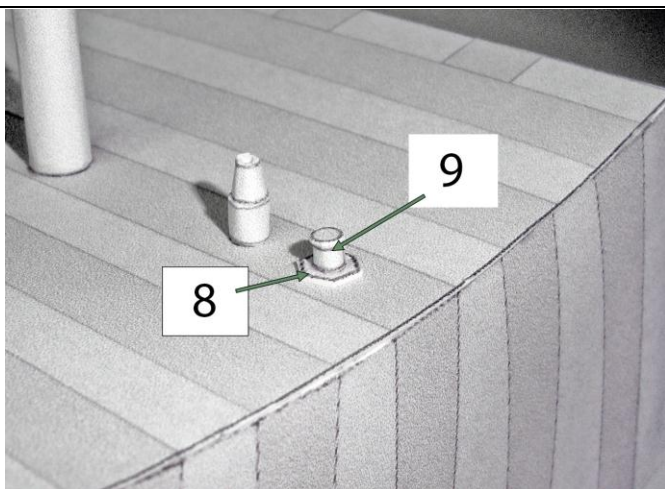

Fold-glue to a box.

Roll part 6 to a tube, glue onto the circle on 5.

Glue 7 to the black circle on the bottom.
10 – 11 are glue onto the two white circles.

Prepare a thin music wire or similar material around 7 inches (around 18 Centimeters) long colored light grey or silver. Glue into the tube and slightly into the small hole on part 5 on the top as shown and let dry. Add some drops of Elmer's glue into the tube to help hold the antenna in place and for strength.

Your model(s) is done.
