

Palapa B2 and Westar-6 1/40 Scale Paper Model Instructions

NOTE:

Only a few photos were found to help design this model. None of them shows any views of the top-inside area. One shows the bottom, but the photo was in poor quality and in a bad angle. These areas were designed using best guess observations and without any detail.

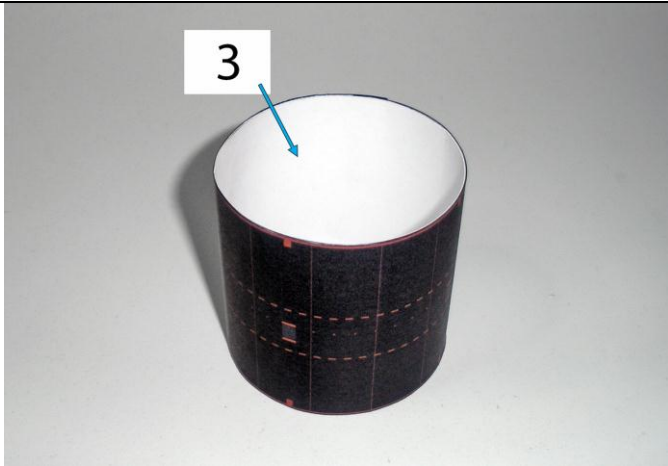

These instructions will work for both the Palapa B2 and Westar-6 models.

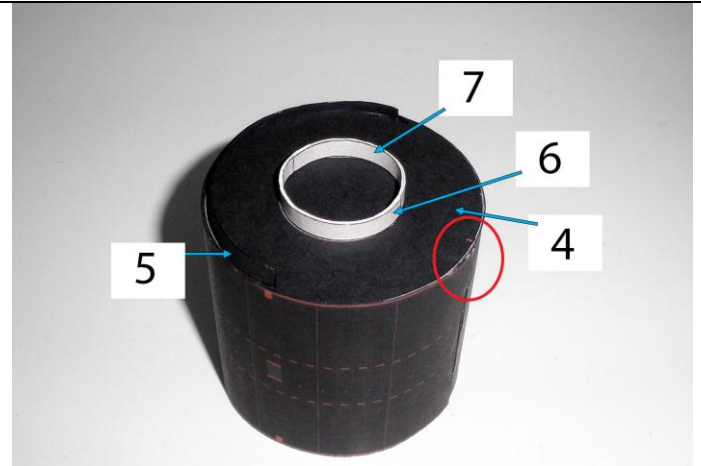

Roll-glue part 1 into a tube.

Glue to inside bottom

Insert part 3 (inside spacer) inside.

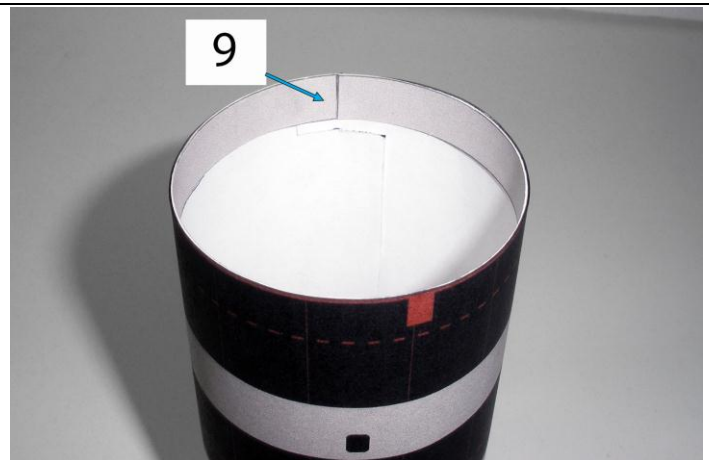

7 is glued inside of 6, 5 is glued onto the curve line near the edge of 4.

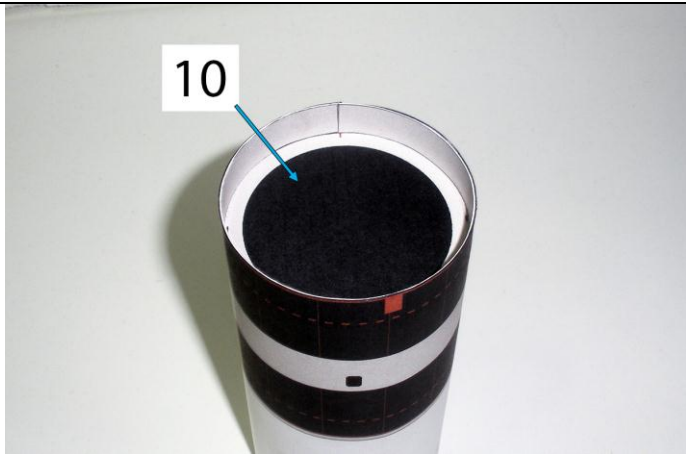

Important - match the red marker on 4 to the seem on part 1 for proper graphic orientation.

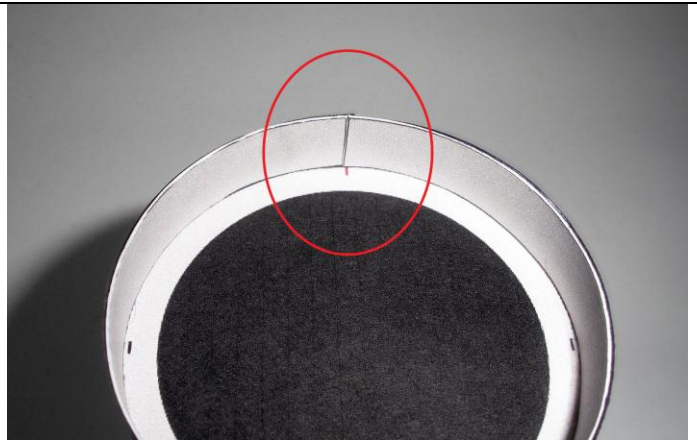

Roll-glue 8 onto a tube.

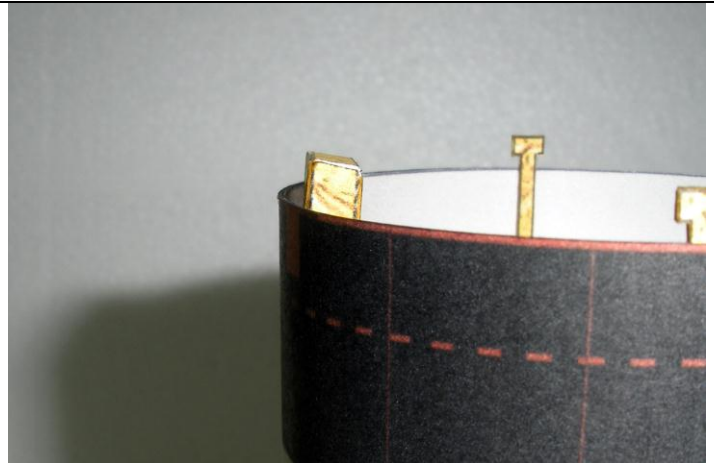

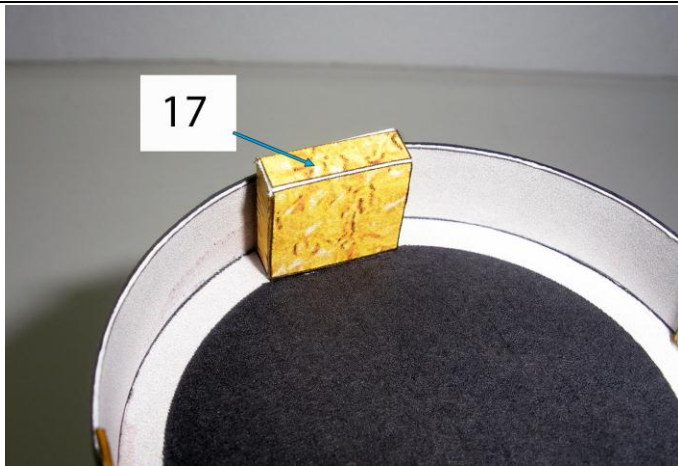

Glue 9 at inside top edge – **Important** – match seem on 9 to the outside seem on 8.

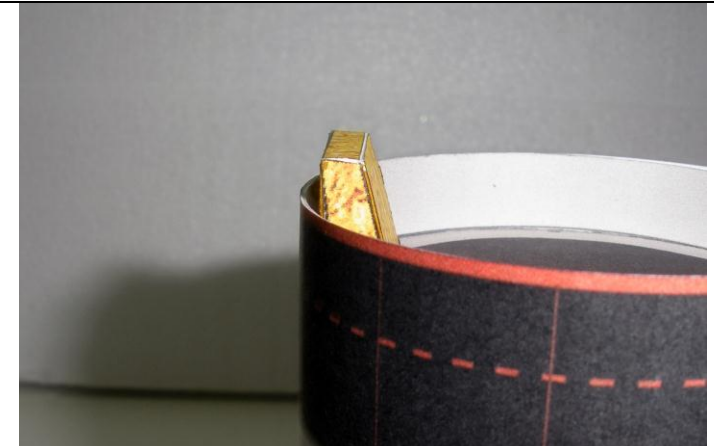

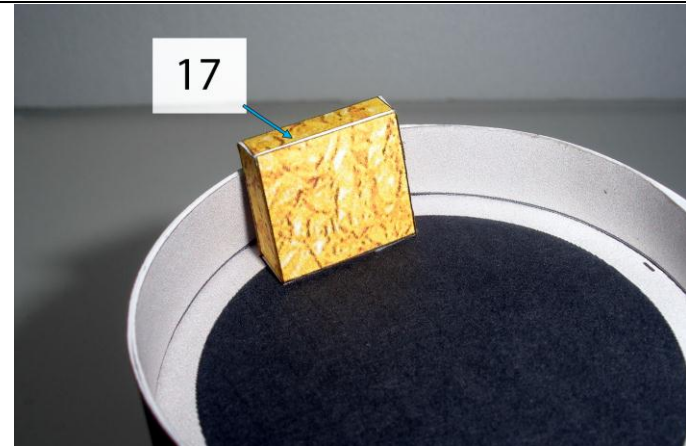

Glue 10 up against 9 as shown.

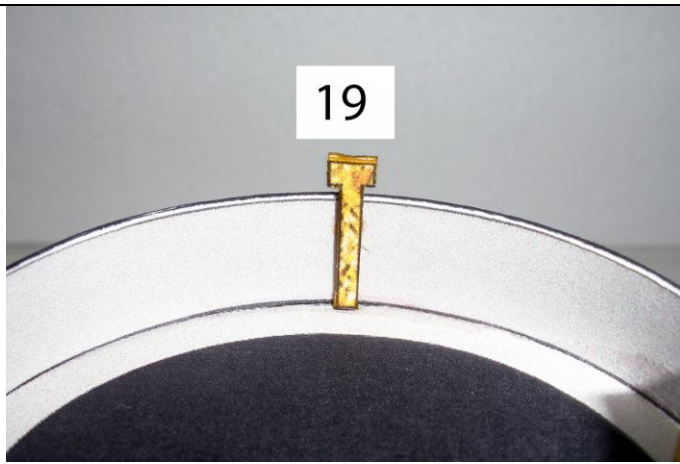

Important – match red marker on 10 to the seem as shown.

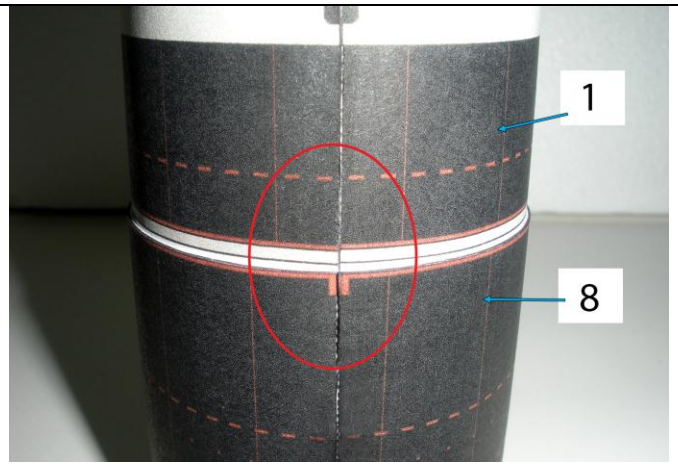

Next two photos is for Palapa B2 model...

Next two photos is for Westar-6 model...

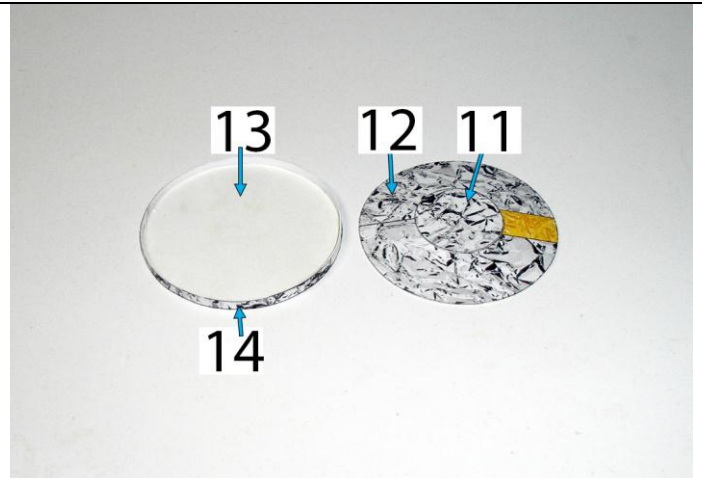

Glue each to the short black lines and against the wall as shown.

Slide the top half (part 1 assembly) into the lower half (part 8 assembly).

Important – match the two seems together.

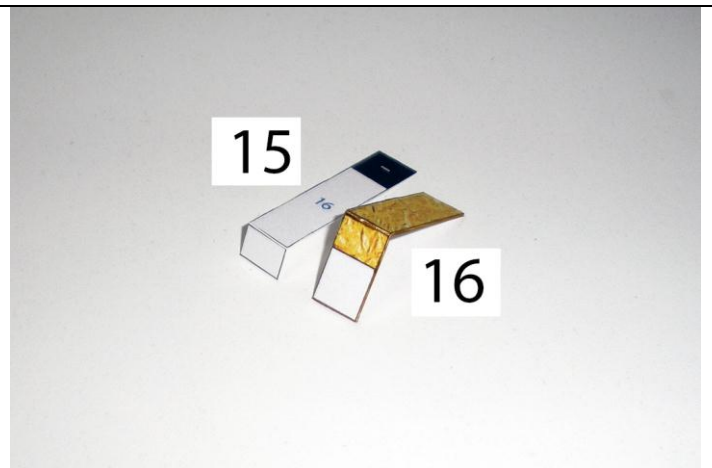

13 is glued inside bottom of the ring (14) with the printed side down. Top of the ring has a downward angle.

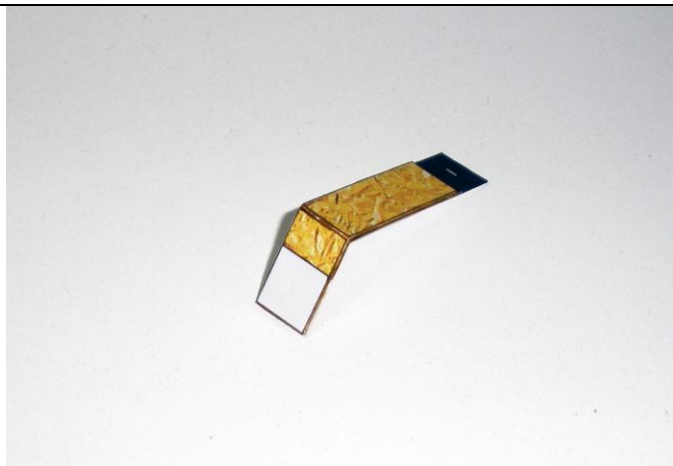

Glue 11-12 onto the top of the ring.

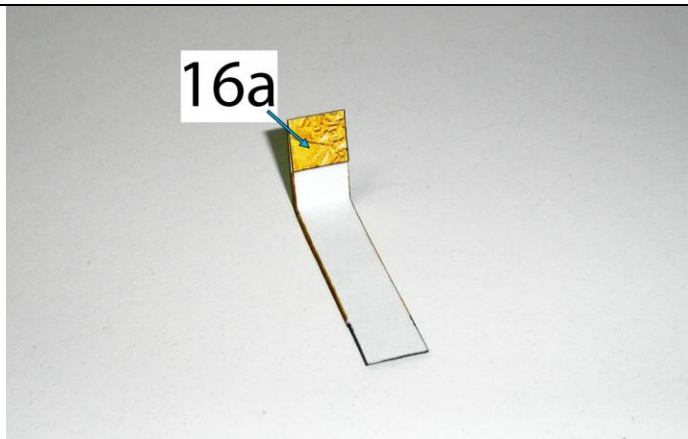

Important – match the yellow area on top of 12 to the white rectangle on side of the ring, The seem of 12 will match with the seem on the ring.

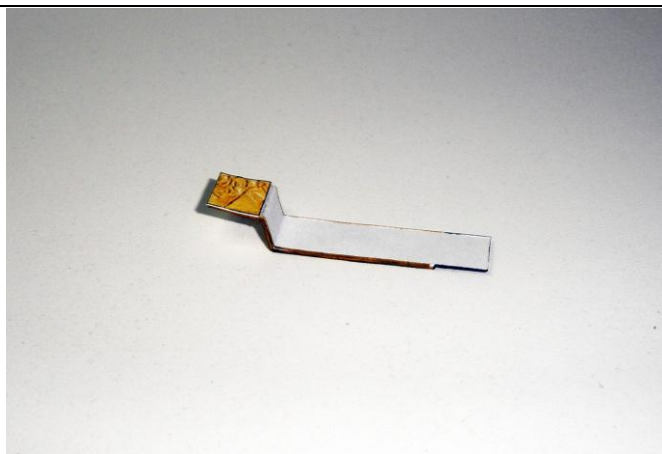

Prepare these parts as shown.

Glue 16 on top of 15.

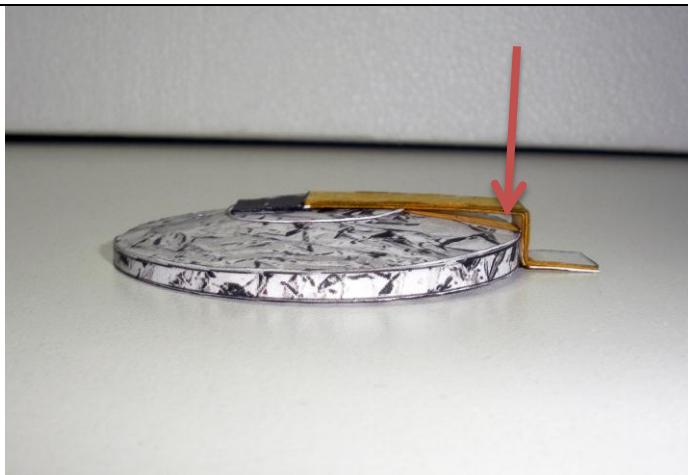

16a is glued to backside of 16 as shown.

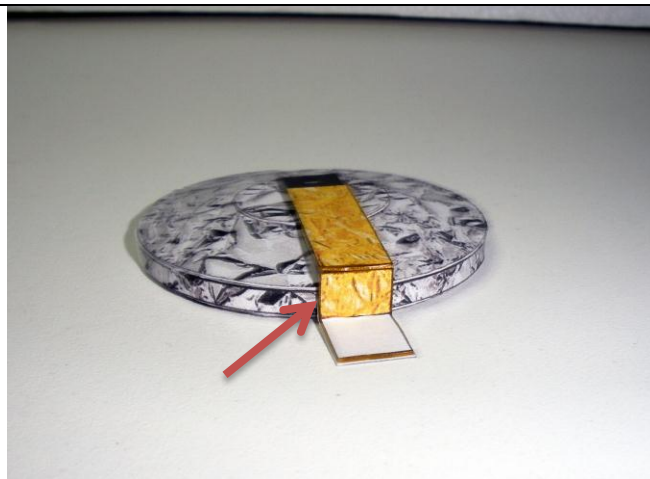

Fold this down as shown.

Glue over the yellow area as shown.

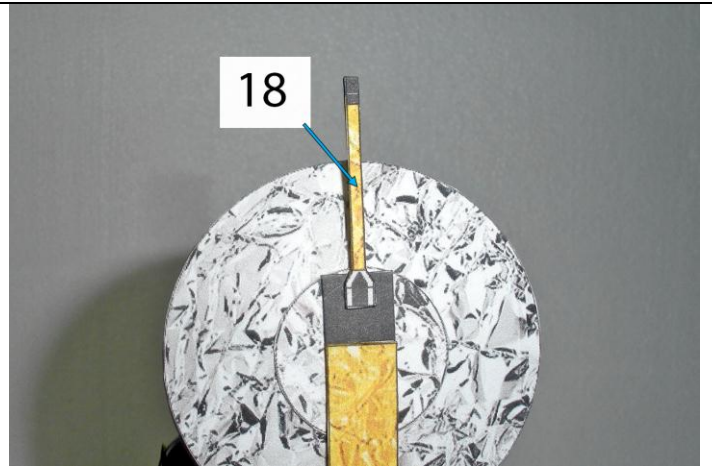

Should be a gap between 15-16 and top of the dish.

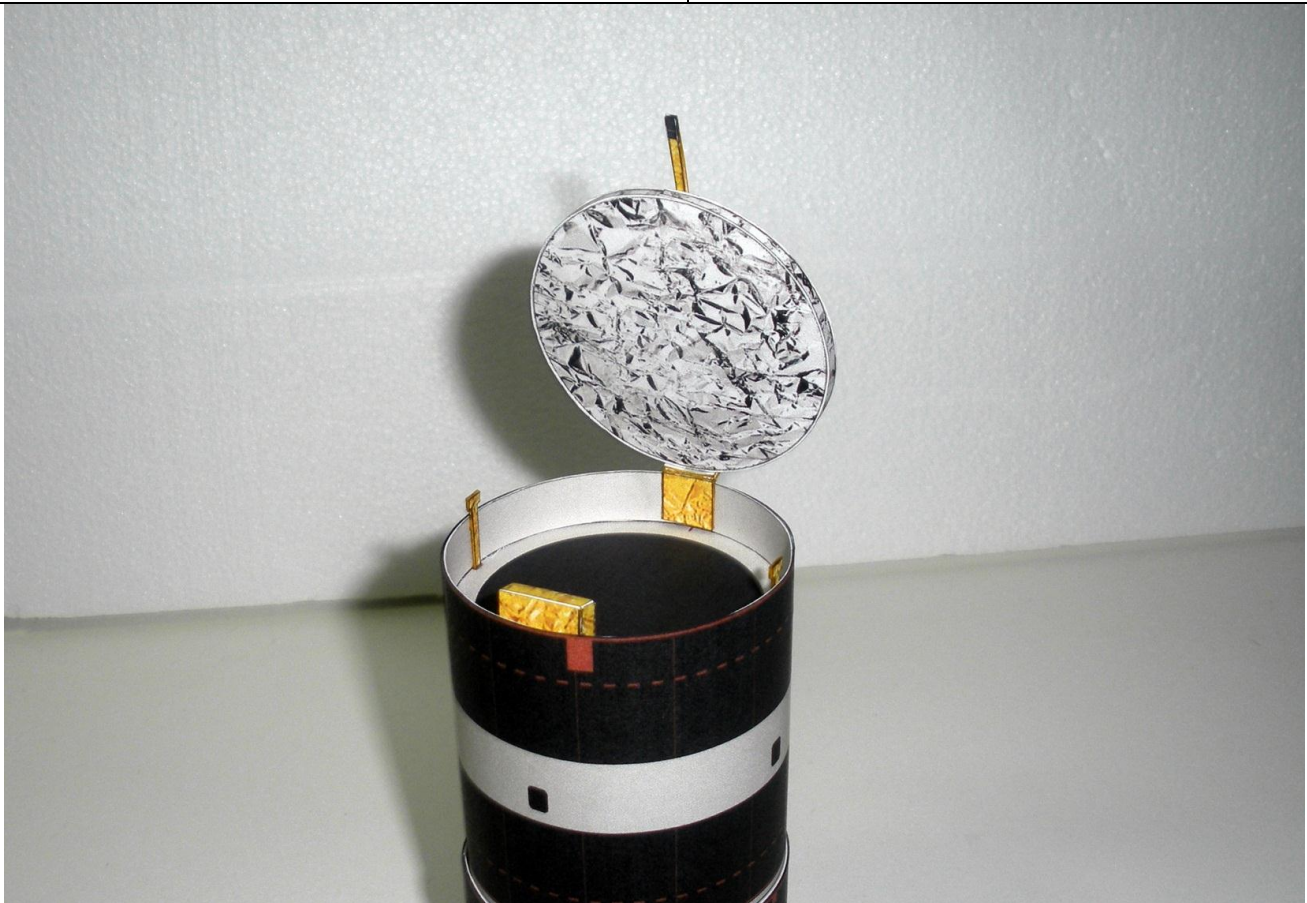

Glue against the white rectangle on the side of the ring.

Otherside if the dish

Gkue onto the grey line as shown.

Glue onto the seem across from part 17 as shown...your model is done.
