

STRaND-1

1/3 Scale Paper Model Instructions

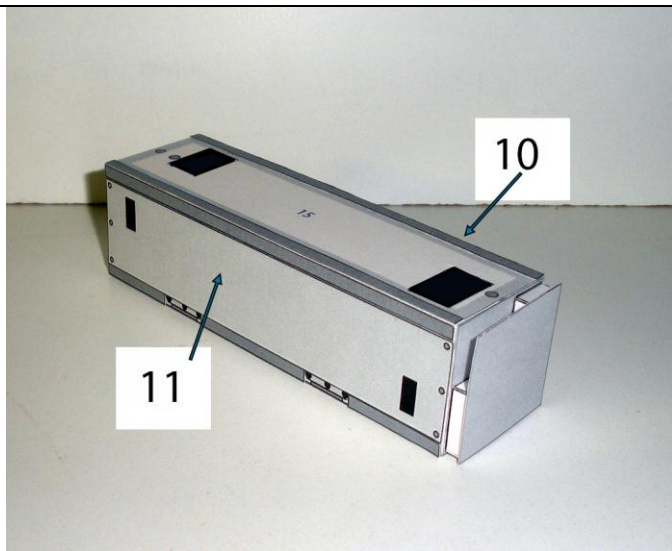

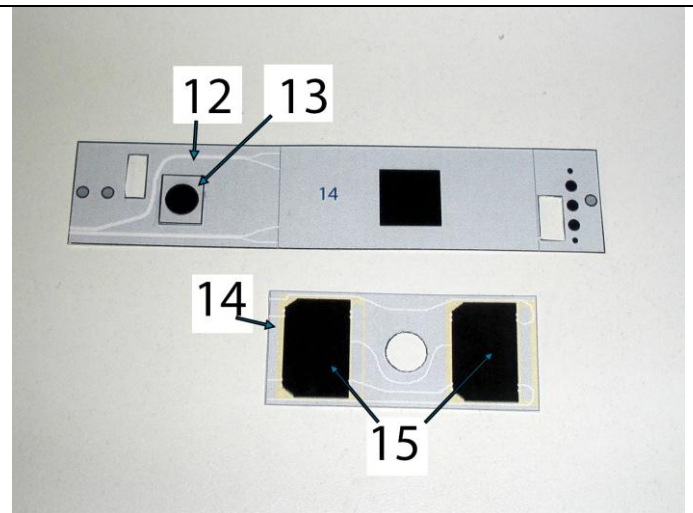

Fold **Part 1** to a box. Glue **2** to the corners on part 1 labeled "2".

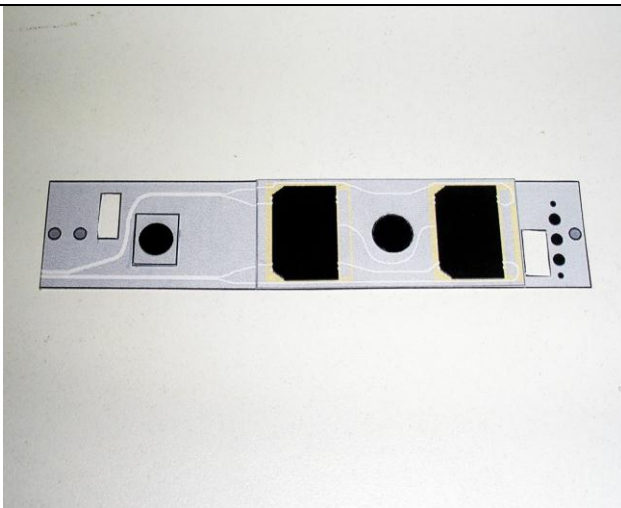

Glue **3a, 3b, 3c** to their labeled areas on 1.

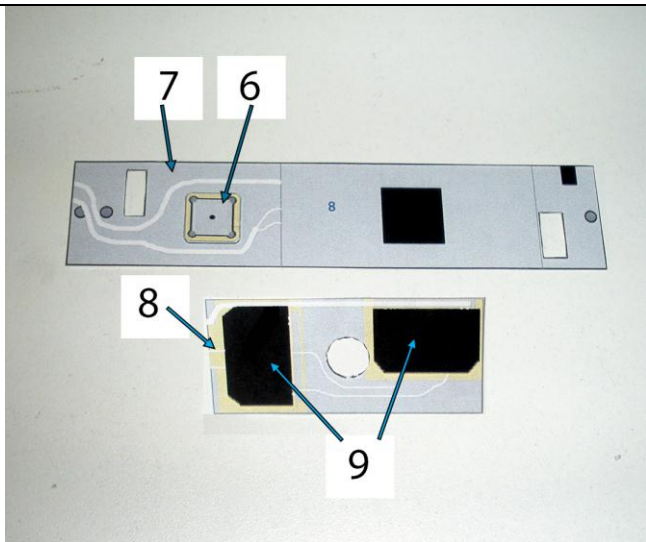

Glue **10** and **11** to their labeled areas on 1.

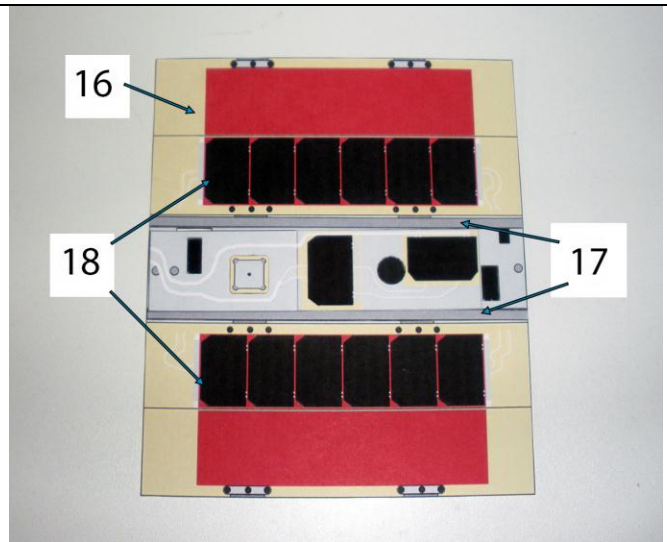

Cut out the light blue areas from **12** and **14**.

Glue this in the area labeled "12" on the body, match the two circles on 12-14 assembly to the two circles on the body.

Cut out the light blue areas from **7** and **8** and repeat the previous process for the parts above.

Glue **17** to their labeled areas on **16** and glue **7-8** assembly onto **16** as shown.

Match the two circles on **7** with the two circles on **16**. Score-fold each side of the solar panels in half and glue together, should look like the example on the next photo.

Glue this onto area on the body labeled "**16**", match the two circles on this with the two circles on the area labeled "**16**".

Your model is done.
