

Sprite-Sat-2 (RISING-2)
1/10 Scale Paper Model Instructions

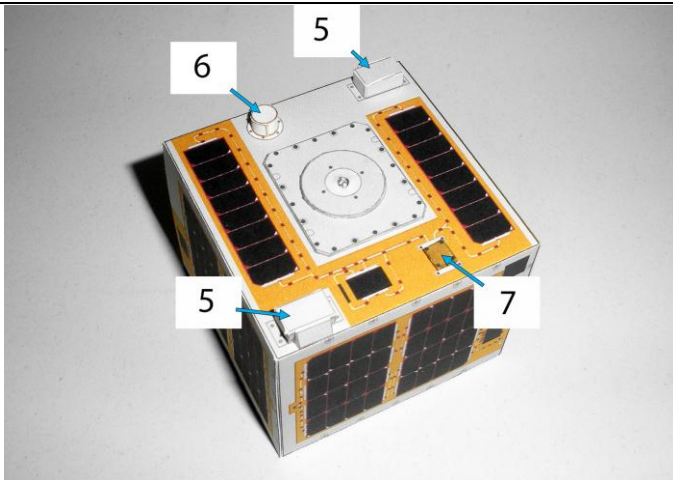

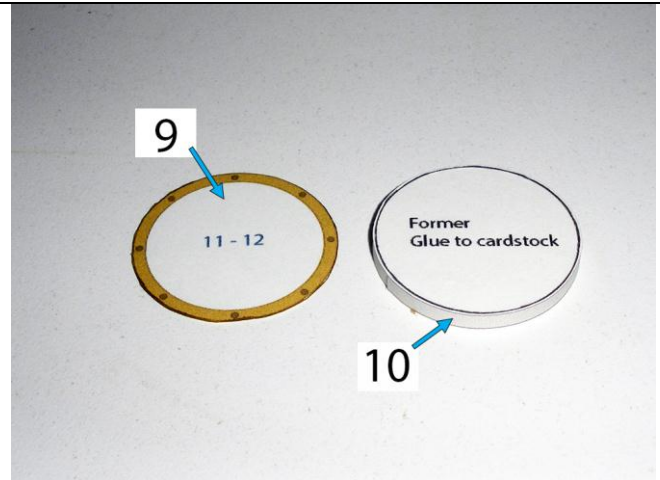

Poke a hole on the black dot on part 3 to help hold the mast in place.

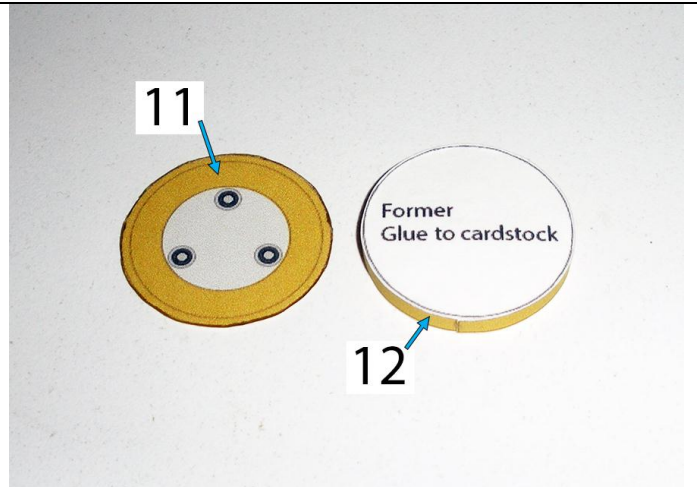

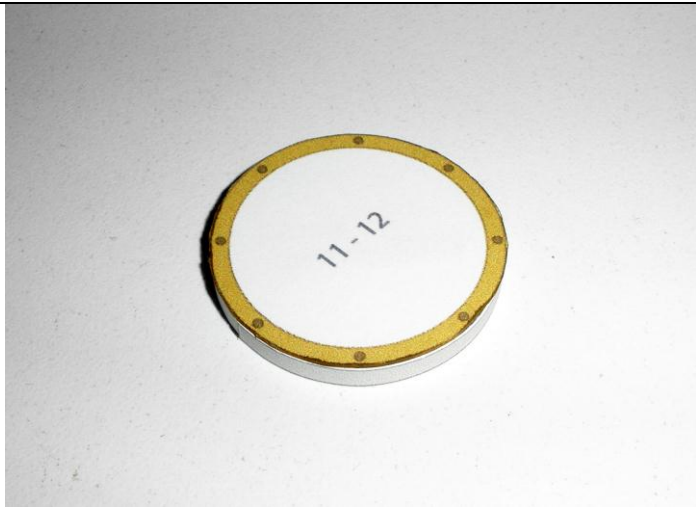

make four of these.

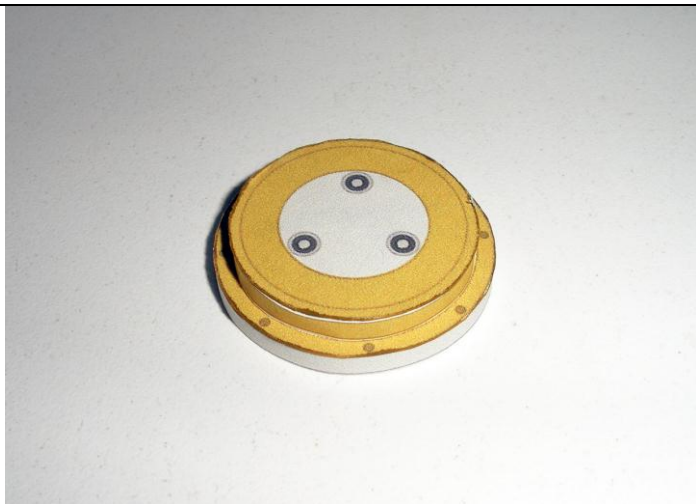

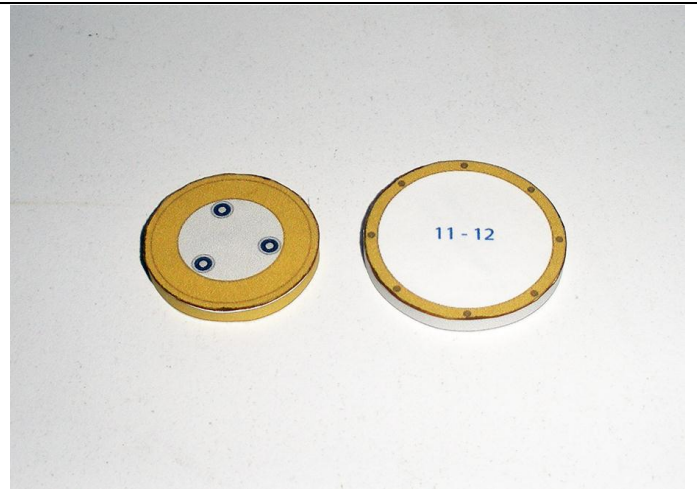

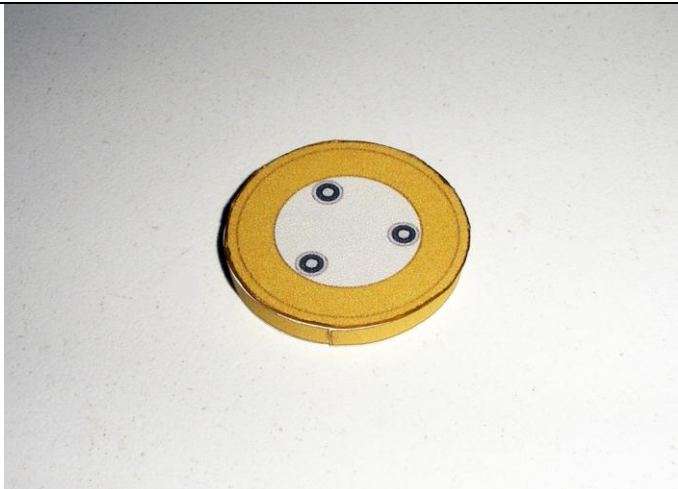

Glue 5-5a on top with 5a facing outwards.

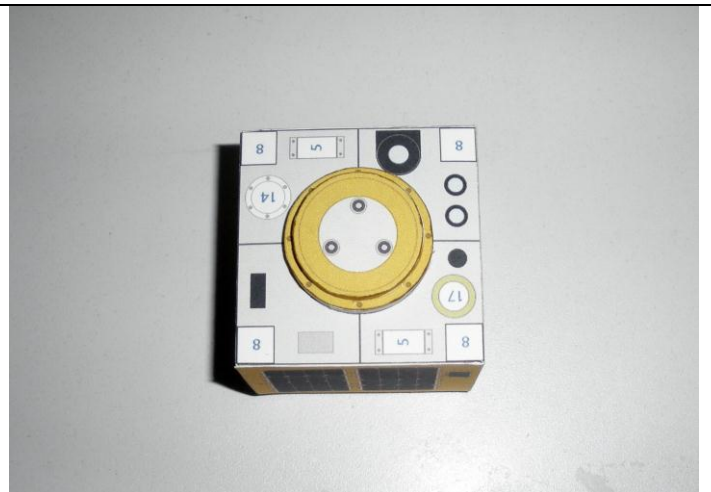

The former fits inside the ring (part 10) to give its round shape.

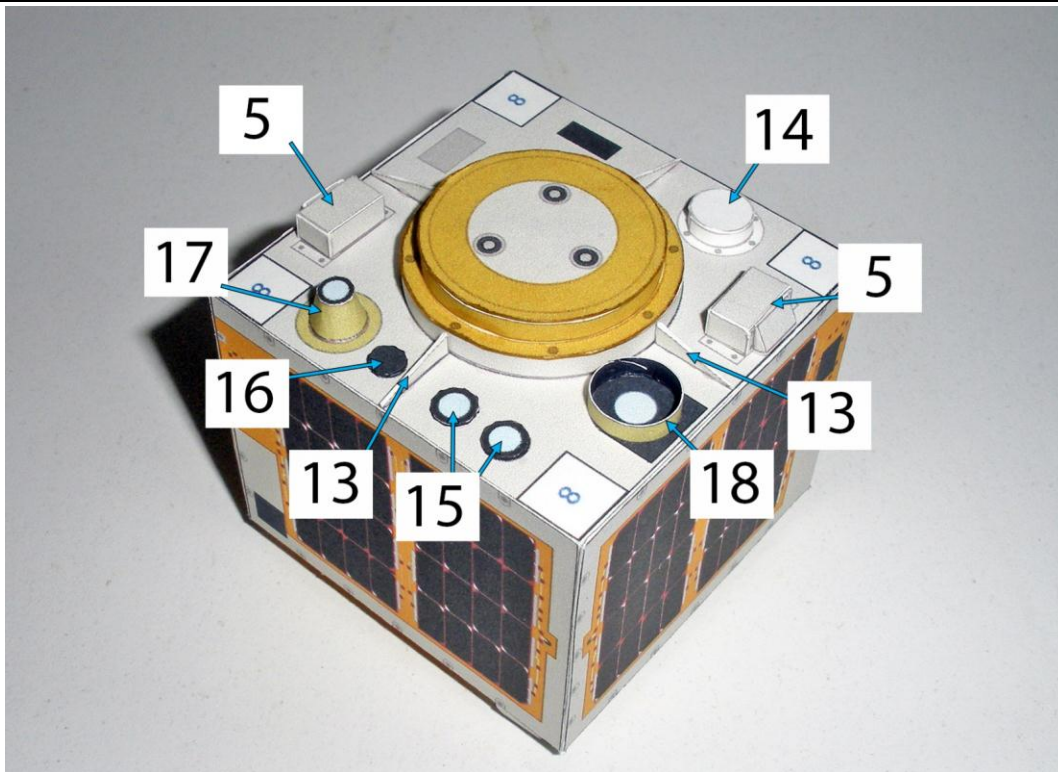

The former fits inside the ring (part 12) to give its round shape .

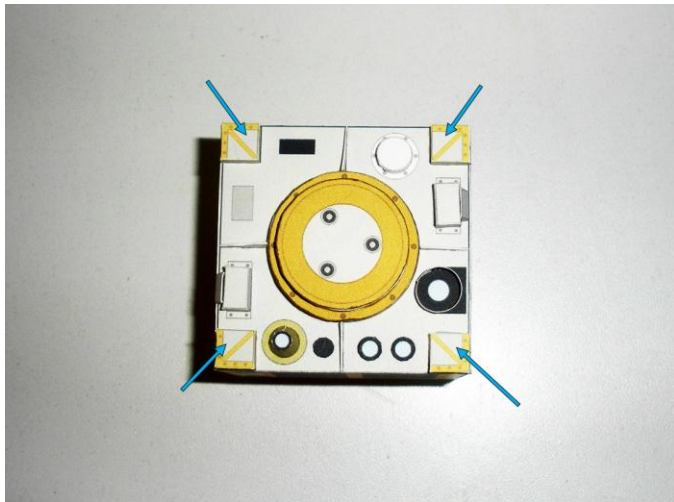

glue together

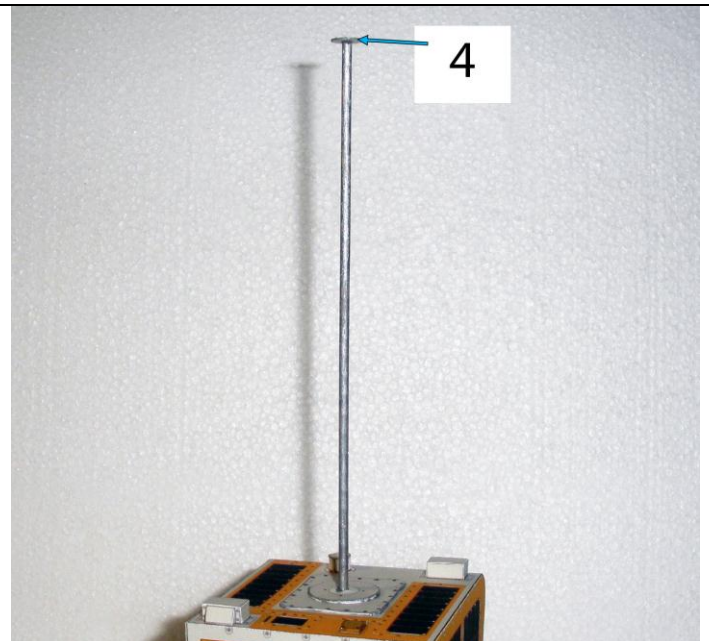

Glue to the bottom, note one of the circles on part 11 faces the top the same side as larger black area.

Parts 13 is glued on the four lines as shown.
Glue 5-5a on the bottom with 5a facing outwards.

Note the two gold colored edges on each pad (parts 8) faces outwards as shown.

Prepare the mast according to instructions on the parts sheet, glue one end of the mast on the black dot at the bottom of part 4 and the other end of the mast into the hole on part 3 on top of the spacecraft. Make sure everything is straight and let dry.

Your model is done.
