

Vanguard 1

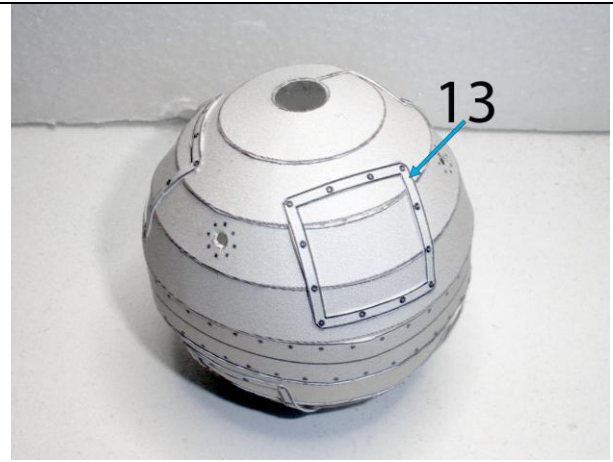

1/3 Scale Papermodel Instructions

Cut out the three(3) holes from Parts 4 and 10 – for the antennas - .

Very Important: Do Not glue parts 1 – 2 (top) and 7 – 8 (bottom) onto the model yet. Match all seams together.

Glue top edge of 13 onto the six black lines as shown.

Note the orientation of Part 12

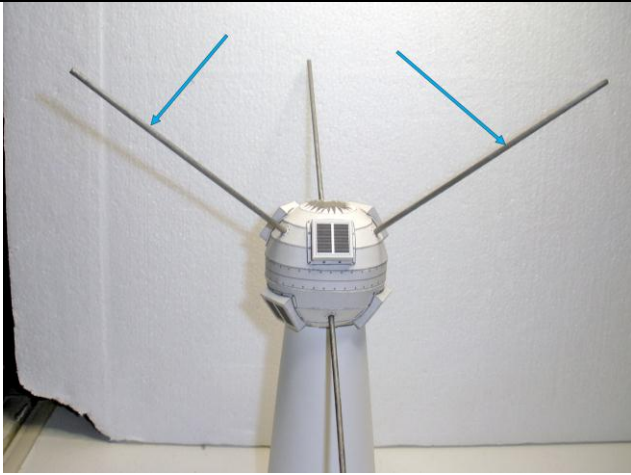

Next two steps are important...

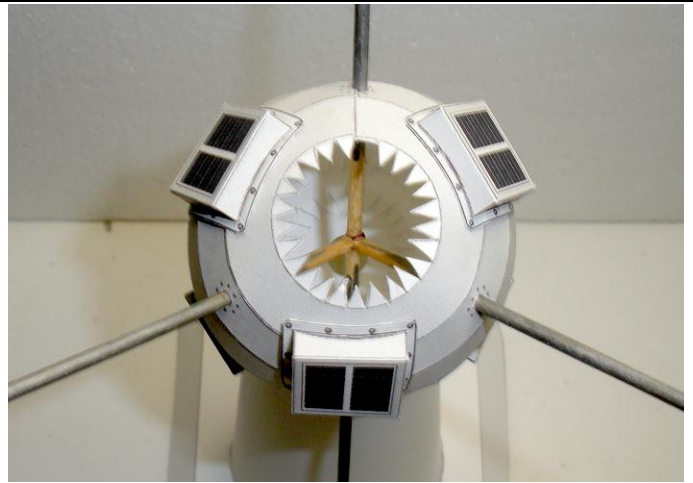

Cut out the 10-inch, 1.8 – 2.0 mm dia wooden skewer according to instructions on page 3 on the parts file. Slide into a hole on the top and out another hole opposite on the bottom as shown.

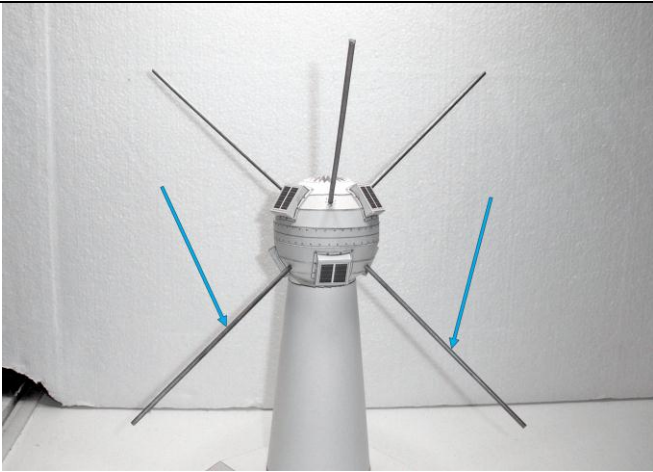

Make sure that each part of the antennas extends out of the model the same length (around 4 inches) and that the marker on the middle of the skewer is at the center inside as shown (red circle).

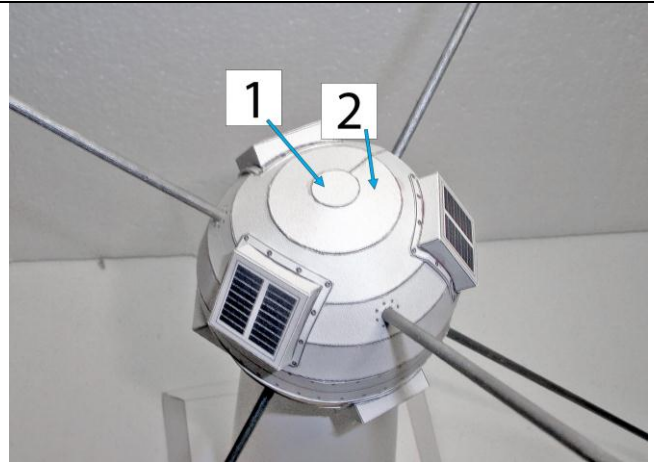

Slide two 5-inch antennas into the other two holes on the Top.

Glue the ends onto the marker inside as shown.

Do the same for the other two antennas on the bottom.

Glue Parts 1 – 2 onto the top and Parts 7 – 8 onto the bottom.

Your model is done.
